

# Mascot Power Supply Upgrade

## More Trains, More Services

February and March 2024

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading the power supply to support an increase to the number of services operating through the T8 Airport Line tunnel and support the introduction of the new fleet of trains operating along the T8 Airport Rail Line.

### What work are we doing?

In February and March, we will continue electrical work inside the substation at 166 O’Riordan Street and installation of a new 10.5-metre-high fence around the perimeter. After work on the fence is finished, the scaffold which is currently in place, will start to be dismantled. Additionally, we are renewing the landscaping, footpath and driveway at the substation.

Furthermore, as the major work on the Mascot Substation comes to an end, the site compound at 200 O’Riordan Street will start to be disassembled. This will involve the use of cranes and trucks to remove temporary sheds and other material from site. After 200 O’Riordan Street is returned to its original state, the team will work from the Mascot Substation at 166 O’Riordan Street while the project continues.

### When and where we’ll be working

Standard construction hours are between **7am and 6pm Monday to Friday** and **8am and 1pm on Saturdays**.

We’ll be working in the substation site at 166 O’Riordan Street and in the site compound at 200 O’Riordan Street. The map overleaf shows the work locations.

### Out of hours work

Some work will take place outside of standard construction hours from:

- **6am to 6pm Saturday 9 March 2024**
- **6am to 6pm Sunday 10 March 2024.**

Additionally, we will undertake electrical work between 7am to 6pm each Saturday until June 2024 at the substation. Some work will take place inside Mascot station and on Bourke Street near Mascot Station.

### O’Riordan Street pedestrian changes

The footpath on the southern side of O’Riordan Street (between Bourke Road and King Street) will be closed periodically throughout the month of February and March. This is to allow oversized deliveries to access the work area.

On the days that the footpath is closed, signage and a detour will be in place via the northern side of O’Riordan Street as shown on the map overleaf. Traffic controllers and signage will be in place to direct pedestrians.

### What will this mean for you?

In addition to the pedestrian changes, you may also notice:

- workers and vehicles
- noise from machinery and equipment
- traffic controllers.

## Managing our impacts

We understand our work may cause disruption to the community. We will seek to minimise impacts as much as possible and follow strict environmental conditions relating to noise, vibration, and dust management.

## We are going paperless

In case you haven't heard, soon we'll no longer be distributing paper notifications (unless requested) to reduce our environmental impacts. Instead, we will contact you via email when there is work that may impact you.

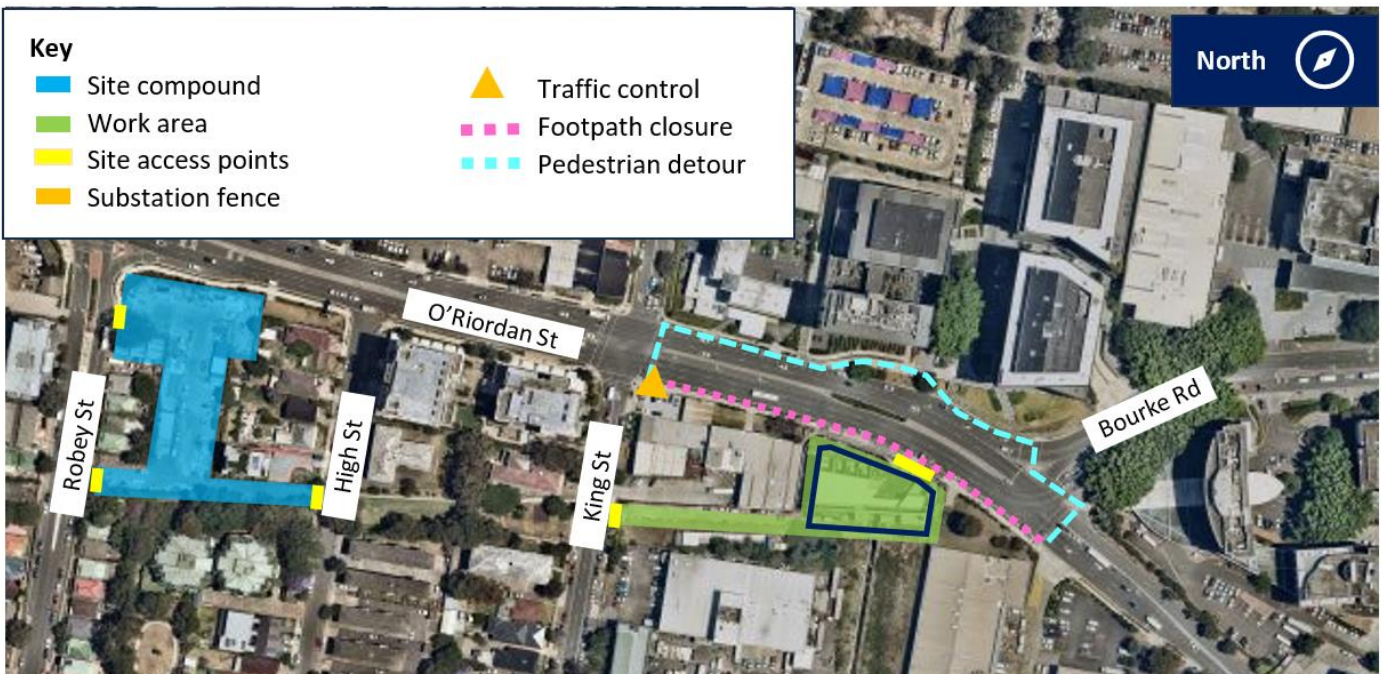

If you haven't already, please scan the QR code and fill out the form to register for email updates.

To continue receiving paper notifications, you can request this via the QR code or call us at **1800 684 490**.

Thank you to residents who have registered already.
