

Restoring full road access on Cambewarra Mountain

Natural disaster recovery

March 2024

Transport for NSW acknowledges the people of the Dharawal Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW will begin an extensive work program to repair landslip damage on Moss Vale Road and restore full road access at Cambewarra Mountain.

The program will start on Tuesday 2 April 2024 and is expected to take four months to complete, weather permitting, with most of the work carried out at night.

What work are we doing?

We will repair the landslip damage caused during record-breaking rainfall in 2022.

This involves adding strength to the slope where the landslips occurred and installing erosion control barriers to prevent further damage.

When we'll be working

Work begins **Tuesday 2 April 2024** and is expected to take four months to complete, weather permitting.

The work will be carried out overnight from **7pm to 5am, Sunday to Thursday.**

Road closures

To keep workers and motorists safe, the road must be closed to all traffic in both directions during work hours.

Residents will have access to their properties under the direction of traffic controllers.

Detours and traffic access

Detours for light vehicles will be via Kangaroo Valley Road. Motorists should allow 25 minutes additional travel time.

Vehicles longer than 7.5m or heavier than 12t GVM can detour via the Illawarra Highway and Princes Highway, adding 90 minutes travel time.

Limited traffic access through the work site will be provided for a five-minute period at:

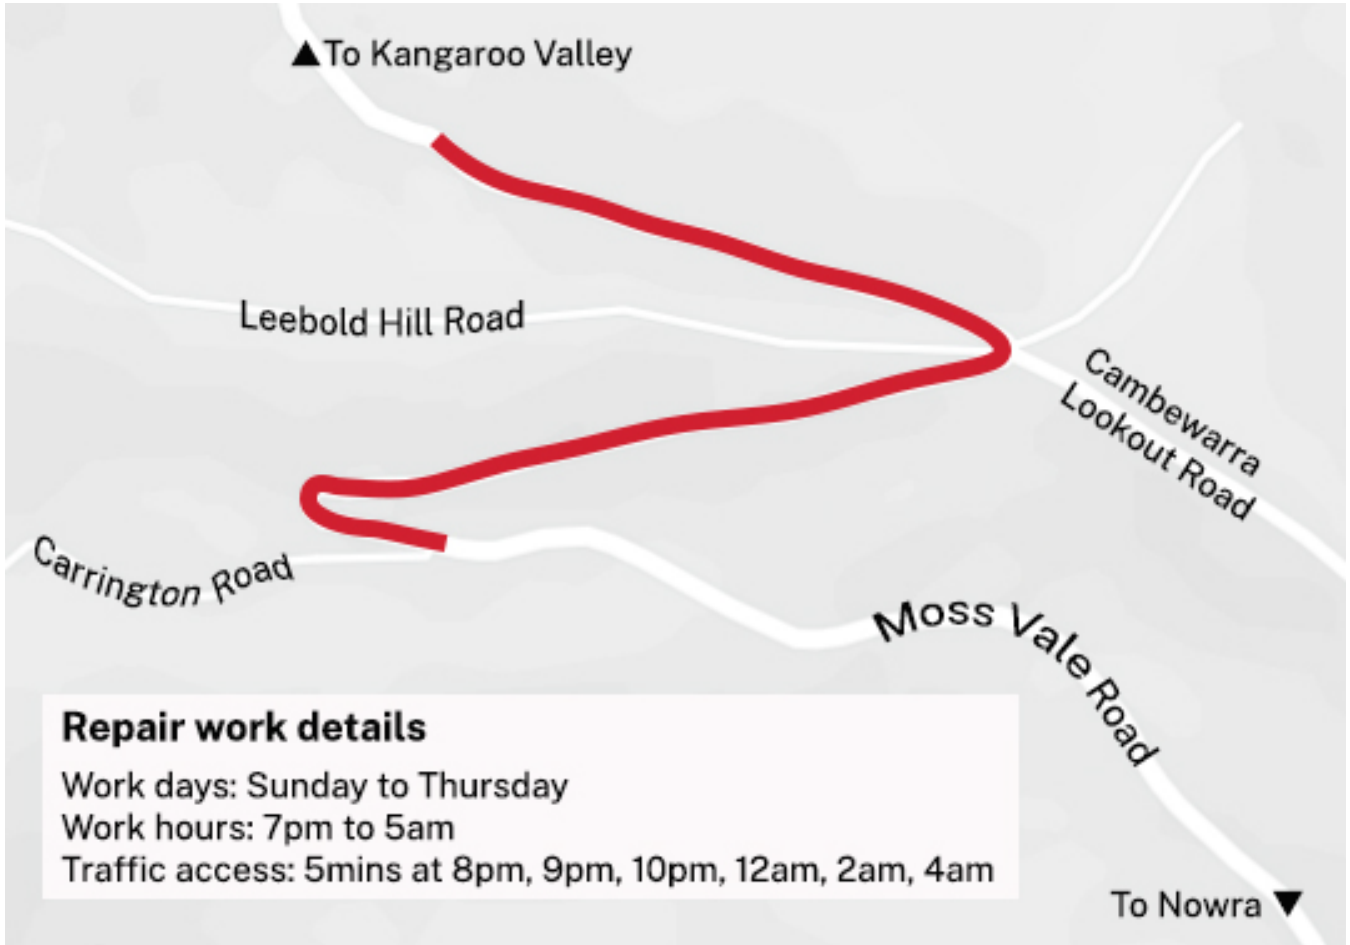

8pm	9pm	10pm
12am	2am	4am

Repairs on a landslip site on Cambewarra Mountain were completed in May 2023.
