

Moss Vale Station and Stabling Yard Upgrade

Community notification

August 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering upgrades to Moss Vale Station and Stabling Yard to achieve Disability Standards for Accessible Public Transport 2002 (DSAPT) compliance and accommodate the new Regional Rail fleet.

What work are we doing?

During recent investigations, dust containing small traces of lead and asbestos were uncovered in the ceiling space of the station building. Removal of the dust will be carried out by a licenced asbestos removalist to ensure a safe working environment.

The removal of the dust in the ceiling space poses no risk to the community and is being removed to allow for further construction to take place safely.

When and where we'll be working

We will be working inside the Moss Vale Station building overnight from **8.30pm to 3.30am Sunday 11 August until Thursday 15 August.**

What will this mean for you?

This work will not impact the community and the area has been contained to ensure no dust leaves the sealed work area.

You may notice:

- workers and vehicles
- signage.

Managing our impacts

We aim to avoid impacts to the community and the environment by:

- engaging licenced asbestos removalists, including air monitoring
- safely disposing of lead and asbestos dust following NSW Government regulations and guidance
- monitoring air quality.
