

Moss Vale Station and Stabling Yard upgrade

Community notification

August 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering an upgrade to Moss Vale Station and Stabling Yard to achieve Disability Standards for Accessible Public Transport 2002 (DSAPT) compliance and to accommodate the new Regional Rail fleet.

The project will provide a station precinct that is accessible to those with a disability, limited mobility, parents/careers with prams and customers with luggage, while ensuring it aligns with Moss Vale's transport needs.

What work are we doing?

This month, construction activities will continue at the station and within the rail corridor.

Work includes:

- continuing excavation and concreting for the new lift installation at the Argyle Street entrance and in the courtyard
- excavating, trenching and services work in the existing work zone of the station forecourt
- establishing a new work area near the footbridge on Lackey Road for excavation and concreting ahead of lift installation
- continuing retaining wall construction in the temporary stabling yard area inside the rail corridor. Fencing, power and water services will be installed, along with a temporary walkway for rail staff
- continuing the set up of site compound 3 on Lackey Road, opposite Parkes Road.

When will we be working

Work will be carried out during standard construction hours.

Working hours are **7am to 6pm, Monday to Friday and 8am to 1pm, Saturday.**

All work is dependent on weather and site conditions and subject to change.

Changes to station access

Access to the station will remain via Dalys Way or the footbridge on Lackey Road. There will be no changes to the current access routes to and from

the station. For information on accessing the station during ongoing work, scan the QR code or visit transport.nsw.gov.au/mossvale

Location of work area

Work will be spread out across Lackey Road and the station and stabling yard areas. All construction areas will have fencing and signage for safety and security.

What will this mean for you?

- Access to the station waiting room will be through the rear doors.
- A pick-up and drop-off zone will be available at the station entrance.
- Traffic controllers on Lackey Road will direct traffic when the southbound lane is closed from Parkes Road towards Argyle Street/Illawarra Highway. There will be no detours and traffic will be bi-directional.

Work has started on the ramp and footbridge at the Argyle Street entrance.
