

Moss Vale Station and Stabling Yard Upgrade

Community notification

Work in September 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering an upgrade to Moss Vale Station and Stabling Yard to achieve Disability Standards for Accessible Public Transport 2002 (DSAPT) compliance and to accommodate the new Regional Rail fleet.

The project will provide a station precinct that is accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage, while ensuring it aligns with Moss Vale's transport needs.

What work are we doing?

Construction activities will continue this month in and around the station building and on Argyle Street, Lackey Road and Dalys Way.

Work includes:

- setting up a site compound near the Lackey Road footbridge ahead of lift installation
- establishing a new site compound further north along Lackey Road, opposite Parkes Road, including deliveries and some excavation, to prepare for work at the stabling yard to begin
- steel delivery and installation for the new lift and footbridge improvements on Argyle Street.

Dust containing small traces of lead and asbestos will continue to be removed from the station building ceilings at night by a licenced asbestos removalist, ensuring the safety of passengers and the community.

From **Monday 9 September**, trains will begin to use the temporary stabling yard within the rail corridor, adjacent to Platform 1.

When will we be working?

Most work will be carried out during standard construction hours, **7am to 6pm Monday to Friday and 8am to 1pm Saturdays**.

Out-of-hours work

Out-of-hours work will be carried out between **3am Saturday 14 September and 6pm Sunday 15 September**. For the safety of staff and passengers this will take place during a scheduled Sydney Trains trackwork period when no trains are running and the station is closed.

Work to be completed this weekend includes:

- establishing a temporary bus shelter in Leighton Gardens on Argyle Street for rail replacement buses
- installing structural steel for the new lifts in the station courtyard and on Argyle Street
- work on both the Argyle Street and Lackey Road footbridges
- removing trees on Dalys Way to make space for the new parking arrangement and road resurfacing.

Some work may generate higher than normal levels of noise. Noise assessments will be carried out and respite vouchers may be offered. Wherever possible we will take measures to reduce noise, including turning off vehicles and equipment when not in use, exercising respite periods during work and using non-tonal reversing beepers.

All work is dependent on weather and site conditions and is subject to change.

What will this mean for you?

Customers are asked to be aware that:

- a pick-up and drop-off zone will be available at the station entrance, except for the weekend of **Saturday 14 September and Sunday 15 September**, when buses are replacing trains. All buses will leave from Argyle Street near Leighton Gardens. During this time, there will also be no pedestrian access on Dalys Way or the Lackey Road footbridge. Traffic control will be in place to direct pedestrians and vehicles.
- Argyle Street car park will be closed from **3pm Friday 13 September until 6pm Sunday 15 September** to allow for crane set up and steel deliveries. Traffic control will guide vehicles during this time.

Traffic controllers on Lackey Road will direct traffic when the southbound lane is closed from Parkes Road towards Argyle Street/Illawarra Highway. There will be no detours and traffic will

be bi-directional with reduced speed limits in place.

Changes to station access

Access to the station will remain via Dalys Way or the footbridge on Lackey Road. There will be no changes to the current access routes to and from the station.

For information on accessing the station during ongoing work, scan the QR code or visit transport.nsw.gov.au/mossvale

Location of work area

Work will be spread out along Lackey Road and in and around the station building, adjacent to Argyle Street and on Dalys Way. Some work will restart in the area opposite the commuter car park for the Mobile Train Simulator later in September.

All construction areas will have fencing and signage for safety and security.

Argyle Street car park will be closed from **3pm Friday 13 September**
