

Night work on the Newell Highway near Narrabri from Friday 1 March

Narrabri to Moree Heavy Duty Pavement Upgrade

March 2024

Transport for NSW acknowledges the Aboriginal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW Governments are jointly funding the \$261.17 million Newell Highway heavy duty pavement upgrades between Narrabri and Moree.

What work are we doing?

As part of the construction program, concrete base slab pours in Sections 1 and 2 near Narrabri will be carried out at night to avoid potential curing issues and to minimise traffic disruptions.

When and where we'll be working

Work will be carried out for up to **20** nights between **Friday 1 March 2024** and **Friday 30 August 2024** in the following locations:

- South of Edgeroi, between Bobbiwaa Creek and Couradda Road intersection on the Newell Highway
- About 12 kilometres north of Narrabri on the Newell Highway, near the Murrumbilla Lane intersection

Work will start at **6pm** and be finished by **7am** each morning. We have included a map to show the location of the works.

Traffic changes

The work will be carried out under existing traffic control conditions to keep the work zone safe, which includes reduced speed limits, single lane closures and intermittent stopping.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call **132 701**, visit **livetraffic.com** or download the **Live Traffic NSW App**.

What will this mean for you?

You may notice noise and light from the use of plant and machinery, and traffic control.

Managing our Impacts

We aim to manage our work to avoid impacts to the community and the environment. This includes:

- Reducing our noise by turning off machinery and vehicles when not in use
- Directing lighting away from residences and motorists where possible

Residents and businesses within the work area will be directly consulted about the planned work activities at least five days before work commences.

Thank you for your patience during this important work.
