

Traffic changes on London Road, Parkes from Tuesday 23 January

Newell Highway upgrade, Parkes Bypass
January 2024

Transport for NSW acknowledges the Wiradjuri People as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW Governments are jointly funding the Parkes Bypass to improve connectivity, road transport efficiency and safety for local and interstate motorists.

The boom gates will operate **Monday to Friday 7am to 6pm** and **Saturdays from 8am to 6pm**.

We will let you know in advance if we need to operate the boom gates outside these times.

What work are we doing?

We are progressing works on the Bypass including constructing the earthworks for the southern approach to the Bridge over Rail.

To safely facilitate plant crossing London Road during this work, we will be installing temporary boom gates and a reduced speed limit on London Road between Saleyards Road and Ballerdee Lane.

See map over the page showing the crossing zone and location of the boom gates.

What will this mean for you?

When machinery is required to cross London Road, the boom gates will be used to hold traffic to ensure the safety of workers and motorists.

Changed traffic conditions including a 60km/h speed limit and intermittent stopping will be in place and may affect travel times.

When and where we'll be working

From Tuesday **23 January**, a 60-metre section of London Road between Saleyards Road and Ballerdee Lane will operate under temporary boom gates and a reduced speed limit.

The boom gates will be in place **6 days per week** for **approximately 10 weeks**, weather permitting.

Managing our Impacts

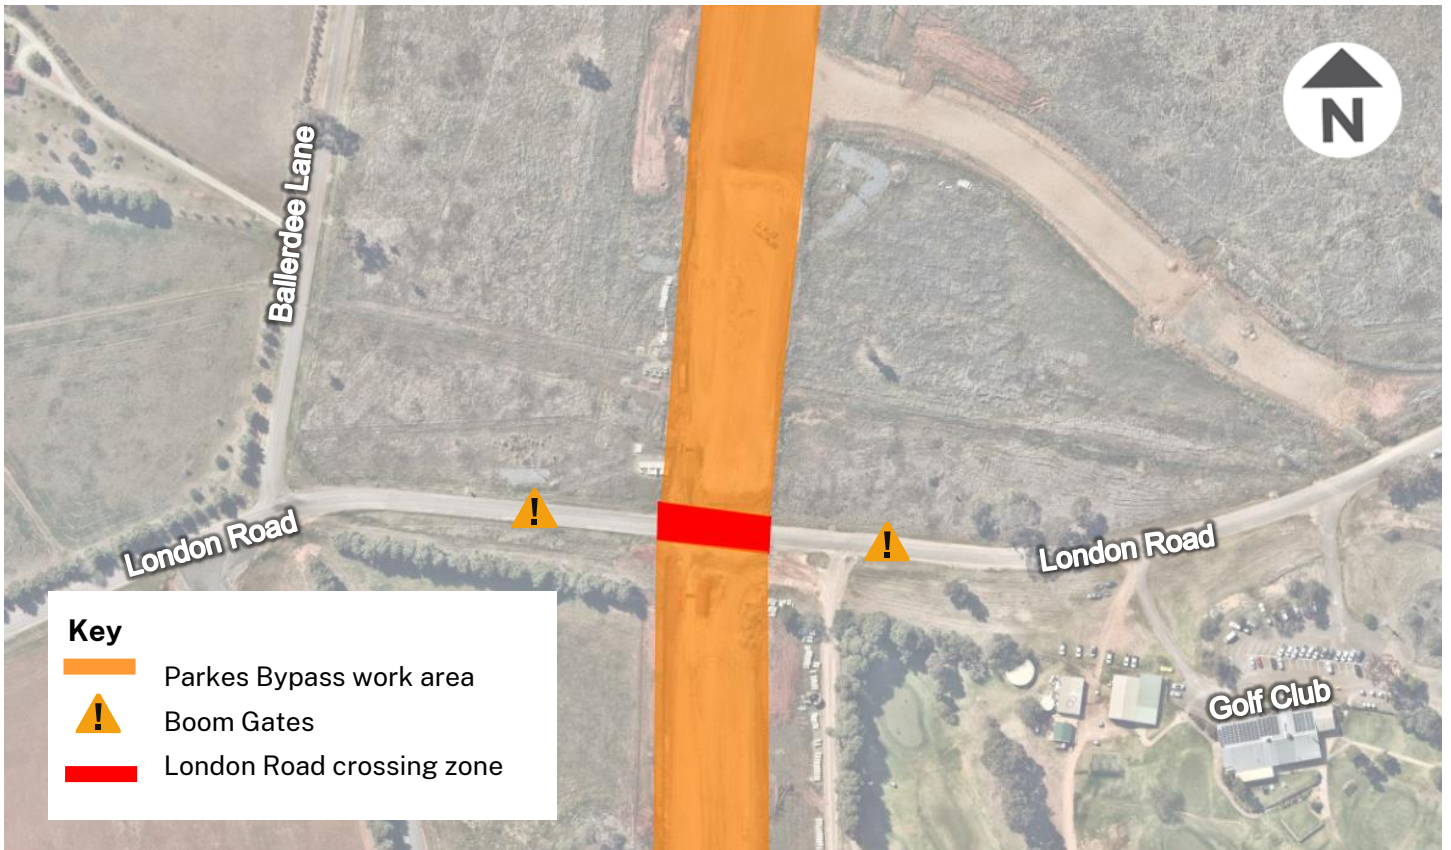

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- Using watercarts to suppress dust
- Arranging the work in stages at different locations
- Turning off machinery and vehicles when not in use.
