

# Changed traffic conditions at London Road in Parkes from Thursday 2 May

## Newell Highway upgrade, Parkes Bypass

May 2024

Transport for NSW acknowledges the Wiradjuri people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW Governments are funding the Newell Highway upgrade, Parkes Bypass to improve connectivity, road transport efficiency and safety for all motorists.

### What work are we doing?

We will be constructing the bypass alignment over the existing London Road.

To facilitate this work and to ensure the safety of workers and motorists we will construct a temporary sidetrack adjacent to London Road.

The sidetrack is expected to take six weeks to construct, weather permitting.

We have included a map to show the location of the work.

### When and where we'll be working

We will be working on a **200 metre section of London Road near Ballerdee Lane** from **Thursday 2 May**.

Work hours are from **Monday to Friday** between **7am and 6pm** and on **Saturdays** from **8am to 6pm**.

We will let you know in advance if we need to do any work outside these times.

There will be some temporary traffic changes in place to safely enable work to be carried out, including:

- Lane closures to help manage traffic flow
- A reduced speed limit of 50 km/h for the duration of the work
- Intermittent stopping
- Barriers and traffic control in place
- Temporary traffic lights

Once construction of the sidetrack is complete, all traffic will be switched onto the sidetrack for the duration of the construction of the bypass alignment over London Road, which is expected to take **eight months**, weather permitting.

### Managing our Impacts

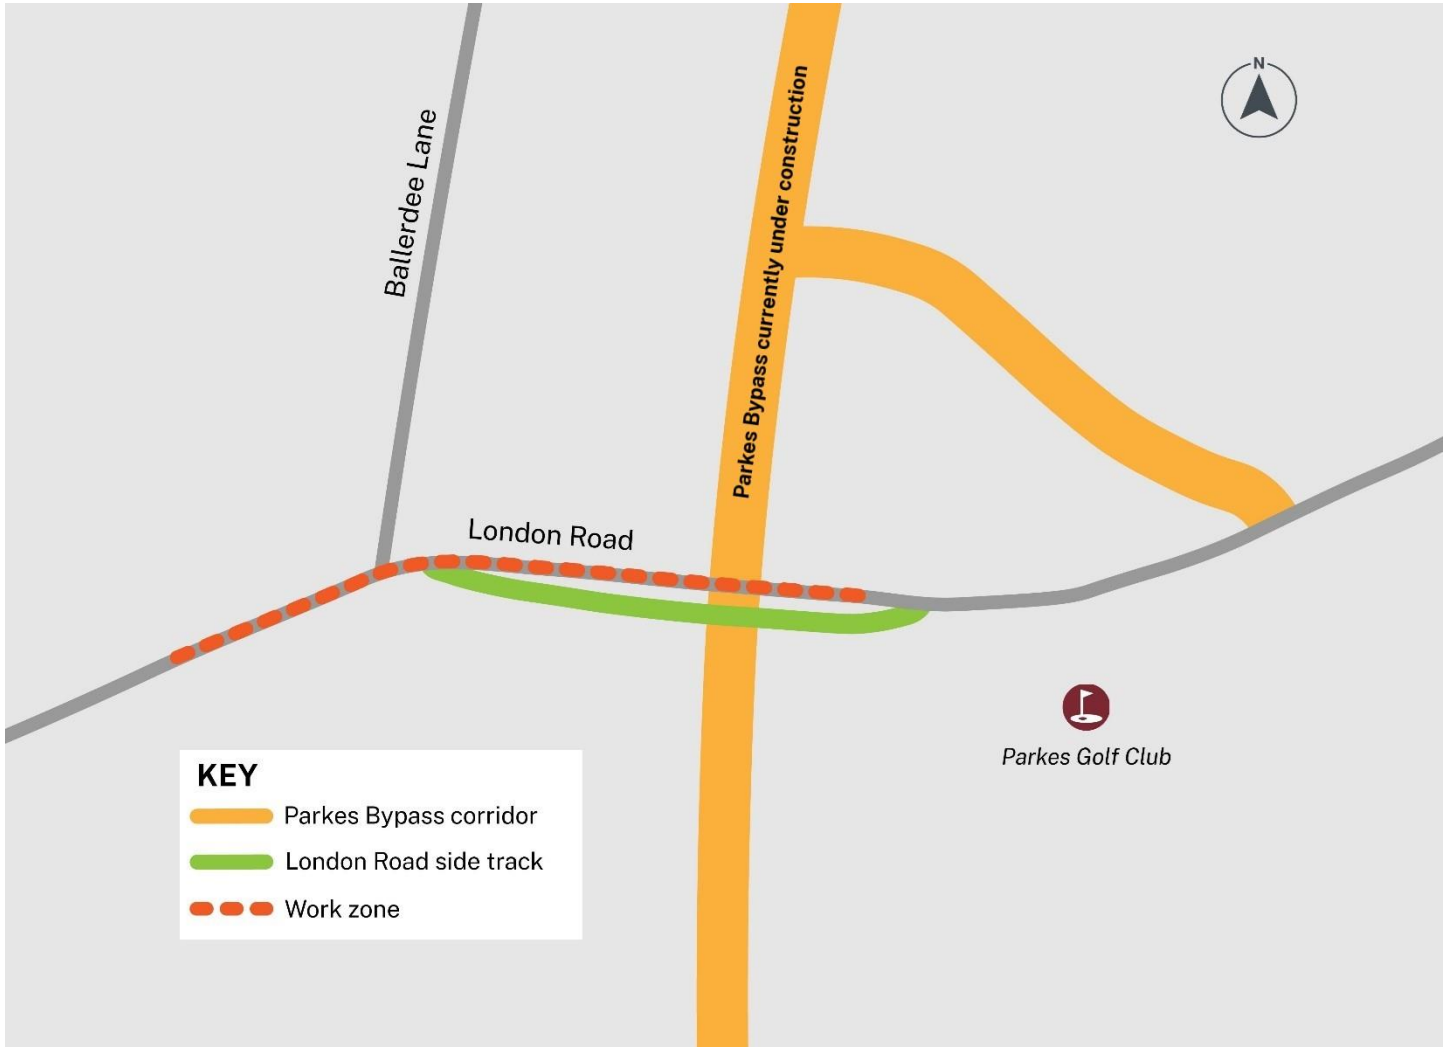

We aim to manage our work to avoid impacts to the community and the environment. This includes:

- Using watercarts to suppress dust
- Arranging the work in stages at different locations
- Turning off machinery and vehicles when not in use
- Use of variable messaging signs (VMS) to direct traffic
