

Pennant Hills Road and North Rocks Road upgrade, Carlingford

Community update

November 2024

Transport for NSW acknowledges the Burramattagal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is upgrading the intersection of Pennant Hills Road and North Rocks Road, Carlingford to ease congestion, reduce travel times and improve safety for road users.

The project is being delivered as part of the NSW Government's \$450 million Urban Roads Congestion Program, which aims to reduce congestion and improve travel times on Sydney's busiest corridors.

What work we will continue doing?

Between **1 December** and **28 February 2025**, we will:

- continue investigation works on existing underground service locations
- continue property surveys
- continue tree removal and vegetation clearing
- continue property adjustment works including utility outages
- carry out demolition and road realignment work within the road corridors
- carry out traffic signal, civil and utility adjustment works
- relocate three bus shelters after consultation with the bus companies on new locations.

Please refer to the map showing the location of work at the back of the page.

Ongoing asbestos removal

Transport for NSW works with qualified asbestos professionals, such as licensed asbestos removalists and Licensed Asbestos Assessors, to safely manage and remove asbestos from project sites and dispose of any asbestos waste to a licensed waste facility.

If, during construction, asbestos not previously identified is found, work will immediately stop while asbestos materials are further assessed and safely removed.

View the **Asbestos Fact Sheet** available on the project webpage for further information on how we manage asbestos removal.

When will we be working?

Between **1 December 2024** and **28 February 2025** work will be carried out during our standard working hours from **Monday to Friday, 7am to 6pm** and **Saturday, 8am to 1pm**.

Out of hours work will also be required for up to **five nights each week**, from **Sunday to Thursday between 8pm and 5am the next day**. We will not work on weekends between 1pm Saturday and 8pm Sunday.

How will the work affect you?

While we carry out our work you may notice:

- workers and vehicles
- noise and vibration from machinery
- temporary traffic changes, including lane closures and a reduced speed limit of 40km/hr

Please keep to speed limits and follow the direction of traffic controllers and signs.

Temporary footpath closures

The footpath on the southern side of North Rocks Road between the intersections with Pennant Hills Road and Jenkins Road will be intermittently closed. Please use the footpath on the northern side of North Rocks Road.

Until December 2026, the footpath on the eastern side of Pennant Hills Road between the intersection with North Rocks Road and Roselea Community Centre will be closed. Please use the footpath on the western side of Pennant Hills Road.

Access to pedestrian crossings will be maintained at all times. Signage showing the pedestrian detours will be in place.

Managing our impacts

We aim to minimise community impacts by:

- fencing our work site for safety and security
- using quieter equipment where practicable
- turning off equipment when not in use
- completing noisier activities like mulching, saw-cutting and jackhammering by midnight where possible – in instances where noisy work is required past midnight, you will be notified in advance
- directing construction lighting to avoid excess glare or light into neighbouring properties.

Holiday season closedown

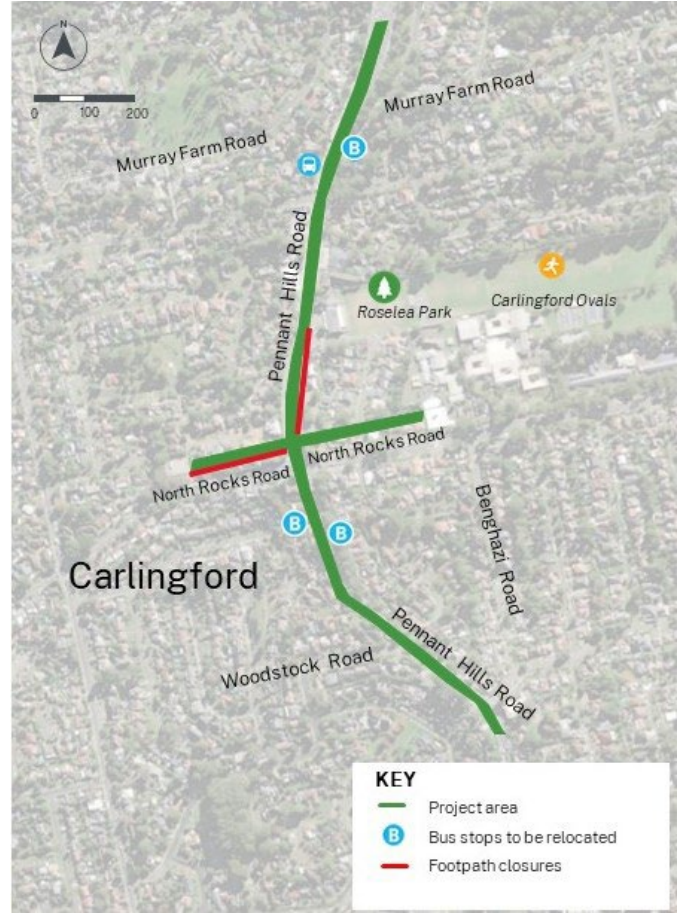

The team will finish work at our site on **22 December 2024** and resume work on **5 January 2025**, with the first night shift to take place on **6 January 2025**.

Further information

If you have any questions, or concerns about the work, or would like to join the project email distribution list, please contact us via the details provided below.
