

# Update on pavement works at St Martins Crescent and Prospect Highway intersection from 28 June

## Prospect Highway Upgrade

June 2024

Australian Government

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW Governments are upgrading 3.6 kilometres of Prospect Highway between Reservoir Road, Prospect and St Martins Crescent, Blacktown to reduce congestion and help meet future traffic demands on this corridor.

### What work are we doing?

- excavation and pavement demolition (includes hammering)
- drainage and utility works
- placement of materials
- pavement construction
- kerb and gutter installation
- line marking and barrier installation

### When and where we'll be working

We recently notified you that we would be carrying out works from **8pm Friday 14 June to 5am Monday 17 June** and from **8pm Friday 21 June to 5am Monday 24 June**. Due to recent wet weather, work has had to be moved.

We will now carry out pavement works at the intersection of St Martins Crescent and Prospect Highway from **8pm Friday 28 June to 5am Monday 1 July** and **8pm Friday 5 July to 5am Monday 8 July** (weather permitting).

### Our work schedule

During this period, we will be working 24 hours a day to complete this work to get the intersection back open as quickly as possible.

### What will this mean for you?

The night work will involve some use of noisy machinery. We will make every effort to lessen the disturbance where possible, completing noisier work earlier in the evening and turning off vehicles when not in use.

### Traffic Changes

To complete work at the intersection of St Martins Crescent and Prospect Highway, entry into and exit out of the intersection will be through a one-way contra flow with motorists using one lane to travel in the opposite direction.

Traffic controllers will be in place to direct motorists between 8pm Friday 28 June to 5am Monday 1 July and 8pm Friday 5 July to 5am Monday 8 July) (weather permitting).

Electronic message signs will be activated in both directions. Traffic control will be in place during work hours for the safety of workers and road users.

Motorists should follow signs and the traffic controller's direction and allow extra time as there may be minor delays.
