

Project update

Spring Farm Parkway Stage 1

September – October 2024

Spring Farm Parkway is a key east-west link that will support the Greater Macarthur region, meeting the needs of a growing population by connecting communities.

In this project update, you will see what we have achieved, upcoming work activities, our work schedule and any traffic changes for the months of September and October.

What have we achieved?

From Thursday 29 August, Spring Farm Parkway Stage 1 officially opened to traffic. Thank you to the local community, surrounding businesses and road users for your patience and understanding while we built this important upgrade.

What's happening next?

- final asphaltting and line-marking on the Hume Motorway and Menangle Road
- continue demobilising the site compound
- minor defect work
- continue with property adjustments, such as property fencing and asphaltting
- continue to landscape across the project
- road maintenance

Our work schedule

Our standard work hours are **7am to 6pm, Monday to Friday** and **8am to 1pm Saturdays**. These hours exclude public holidays and inclement weather.

Unless otherwise notified, our night work construction hours are from **6pm to 5am, Sunday to Thursday** with no more than five consecutive nights of work at one time.

Managing our impacts

We aim to manage our work to minimise impacts on the community and the environment. Our work may be noisy at times and we apologise for any inconvenience.

Where possible we minimise noise by:

- turning off machinery when not in use
- positioning equipment such as generators away from properties
- undertaking noise monitoring
- communicating over radio and hand signals

What will this mean for you?

During our night construction hours, we may use noisy machinery and equipment.

You may notice

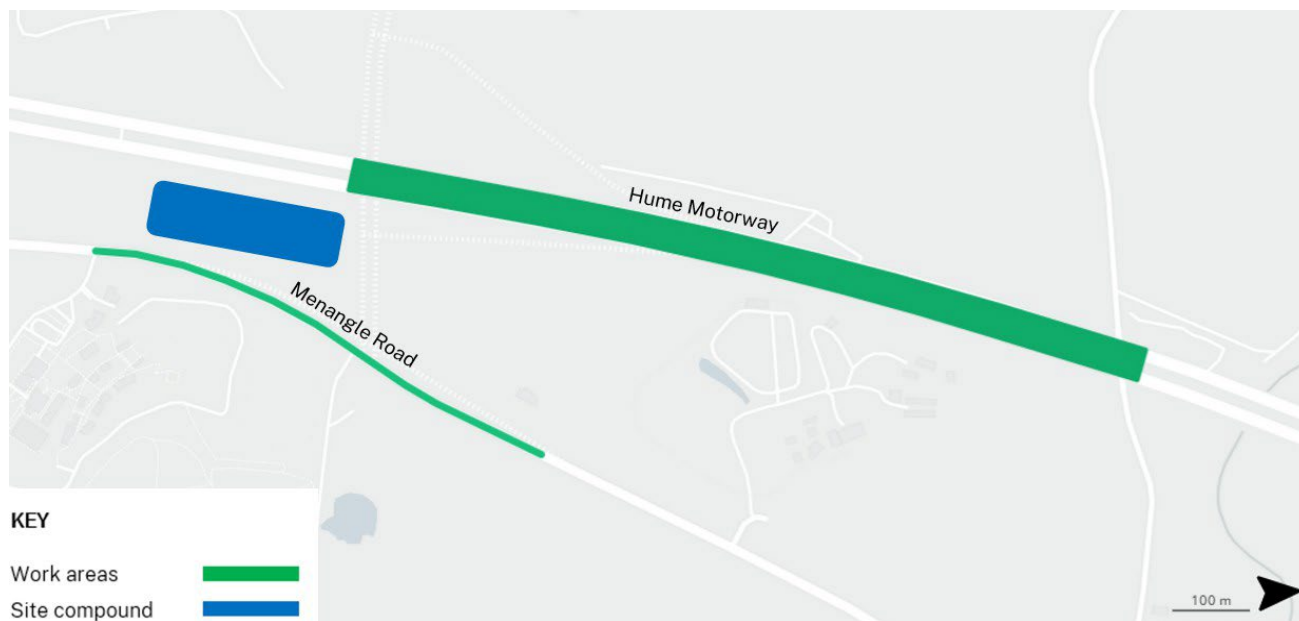

- workers, vehicles, traffic controllers and signage
- road/lane closures, detours, and reduced speed limits
- noise from machinery and equipment

Acknowledgement of Country

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Out of hours work areas along the Hume Motorway and Menangle Road

Traffic Changes

To minimise traffic disruptions and safety risks to workers and road users, reduced speed limits have been implemented around our work area.

These include:

- 60km/h speed limit through Menangle Road construction zone and outside of school zone hours
- 40km/h speed limit through the Menangle Road construction zone while work is being carried out near live traffic and/or night work
- 80km/h speed limit through the Hume Motorway construction zone
- 40km/h on Hume Motorway during nightwork

To safely complete the final asphalt laying on the Hume Motorway, there will be lane closures on both the southbound and northbound lanes at different times. A 4.5-kilometre contraflow will be in place to enable the closure of one lane each night with traffic control managing traffic in both directions.

Electronic signage will advise road users of these changes. Please keep to speed limits and follow signs and traffic controller's directions.
