

South Mosman Wharf Upgrade Start of construction

Safe Accessible Transport

May 2024

Artist's impression of the new South Mosman Wharf, indicative only

South Mosman Wharf is being upgraded as part of the Safe Accessible Transport program to make public transport safe, inclusive and easy to use for all passengers, especially people with disability, older people, people with prams or luggage and people with limited mobility.

Benefits

**Quicker
and
more efficient
ferries**

**Improved
safety**
for passengers
and staff

**Improved access
for passengers
with assisted
and unassisted
mobility needs**

**Improved
protection**
from wind, rain
and sun

Acknowledgement of Country

Transport for NSW acknowledges the Borogegal and Cameraygal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Project Update

The South Mosman Wharf Upgrade received planning approval in June 2021. The detailed design is now complete, and construction is planned to start **Monday 3 June 2024**. Work will take about eight months to complete, weather permitting, and ferry services and the work area will be closed during this time.

About the work

Key features of the project include:

- a new floating pontoon with a covered waiting area, passenger seating, glass weather screens and information boards
- a new lift providing accessible access
- new covered stairs
- a new street level covered waiting area
- a new covered accessway connecting the lift to the gangway on the lower foreshore
- a new covered gangway and jetty providing better weather protection
- additional pontoon safety and security features including lighting, closed circuit television (CCTV) cameras, water access ladders, life buoy and tactile ground surface indicators
- installation of three bicycle parking hoops.

Changes to the wharf design

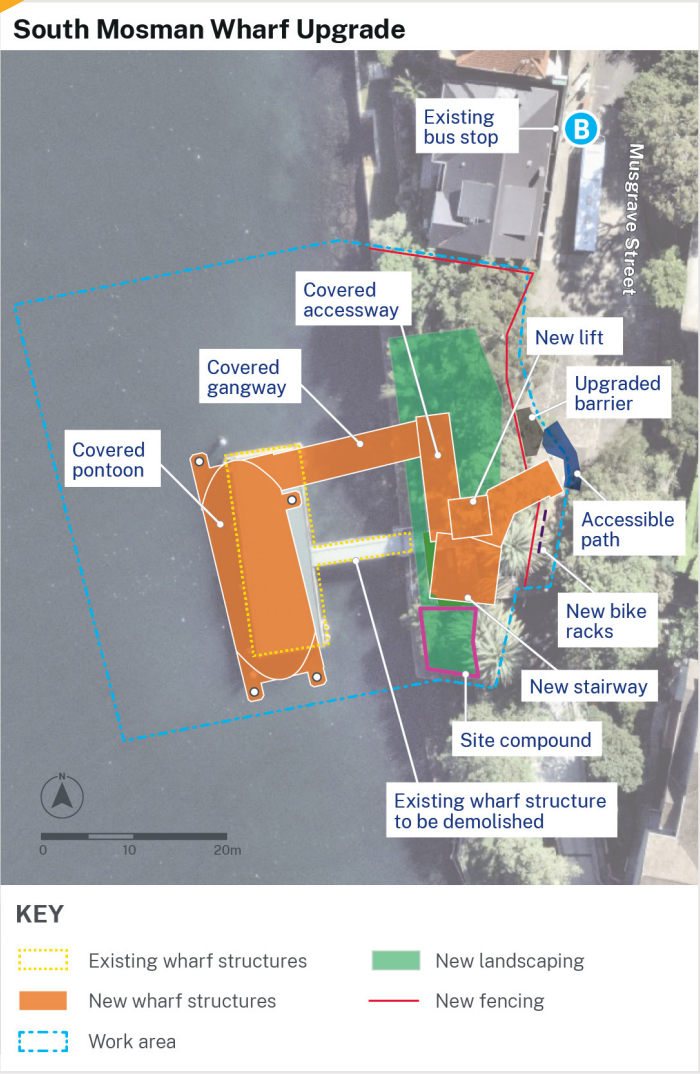

We would like to thank everyone who has taken the time to provide feedback on this project. As a result of your feedback, we have:

- added a covering to the gangway, stairs and lift platforms
- added glass screens at the northern and southern ends of the covered pontoon, providing weather protection for the seating area.

Work starting – Monday 3 June 2024

South Mosman Wharf will be closed to the public from **Monday 3 June 2024** for around eight months, weather and site conditions permitting.

During construction ferry services will be suspended from South Mosman Wharf from Monday 3 June with the final service operating as usual on Sunday 2 June.

Work hours

- Our standard work hours will be between:
- **7am** and **6pm** Monday to Friday
 - **8am** and **1pm** on Saturday.

Some work may be required outside of these hours, such as installing the piles and lifting sections of the wharf into place.

For safety and accuracy our workers require very still water during these activities and conditions are usually most calm in the early morning or at night.

We will notify nearby residents before any work occurs outside of standard hours.

Traffic and transport

There are no road closures planned during construction. Should temporary truck access be required to Musgrave Street, we ask that pedestrians and motorists please follow instructions of any on-site traffic controllers while work is underway.

Construction activity

Activity	Detail	Timing (note some activities will run concurrently)
Site establishment	<ul style="list-style-type: none">• Installing:<ul style="list-style-type: none">– fencing– hoarding– site sheds (requiring some tree removal)	Around two weeks
Demolition and excavation	<ul style="list-style-type: none">• removing existing wharf• concrete cutting and removal at water's edge• excavation of retaining wall and rock face for new stairs• concrete foundations for lift shaft• extracting existing piles and installing new pontoon piles• installing skybridge and stairs	mid-June to September
Building new features	<ul style="list-style-type: none">• Installing:<ul style="list-style-type: none">– new piles– new pontoon and gangway– new footpath and road pavement– barrier, balustrading and fencing– skybridge and stairs– three new bike racks• Fitting out lift shaft and glazing• Landscaping work, including planting of new trees (to offset removal)	September to December
Site demobilisation	<ul style="list-style-type: none">• site clean up• lift inspection• opening to public	December to January

Please note estimated timing for these construction activities to be carried out is subject to weather and water conditions.

Alternative transport during construction

Ferry passengers will need to use alternative transport during the wharf closure. The temporary closure of South Mosman Wharf will not change the timetable for ferry services to other wharves on the F6 route.

Ferry services will continue to run as usual from Mosman Bay Wharf.

Mosman Bay Wharf can be accessed by active transport such as walking or bike riding. Catching the 111 bus service from Musgrave Street to Canrobert Street and changing to the 230 bus from Avenue Road, or the 230 bus service from Military Road can also be used to connect to North Sydney and other services.

Please note:

- Passengers are encouraged to allow extra travel time and plan ahead by visiting **transportnsw.info** or using trip planning apps.
- For more information on bus services, visit **Trip Planner, transportnsw.info** or phone Transport Info on **131 500**.

Safety on the water

We will be demolishing the existing wharf and removing all pieces offsite via barges on the water. All water users must maintain a safe distance from the waterside work zone at all times.

KEY

- 230 bus route
- - - Ferry route
- X Closed wharf
- ... Walking route
- 111 bus route
- F Ferry wharf
- B Bus stop

We're going paperless

To reduce our environmental impact, we would like to provide construction updates to the community via email, instead of printed notifications.
