

Field investigations along T C Frith Ave, Five Islands Rd and surrounding network from Thursday 18 April 2024

Speers Point roundabout

April 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is carrying out surveys along T C Frith Avenue, Five Islands Road and the surrounding network, to inform future work and planning.

What work are we doing?

Field investigations include surveys of the road corridor, geotechnical investigations and utility surveys in the area.

When and where we'll be working

We will be working intermittently in your area from **Thursday 18 April 2024 for up to five weeks**, weather permitting.

We will be working between **7am and 5pm from Monday to Friday**.

To minimise impact to motorists, some night work will be carried out between **7pm and 5am Monday to Friday**.

We will let you know in advance if we need to do any work outside these times.

We have included a map to show the investigation area where the surveys will be carried out.

What will this mean for you?

You may notice workers on site in high vis clothing, using lighting to carry out the work.

Work will involve vehicles moving on-site that generate a small amount of noise and flashing lights. Some noise may be generated from workers talking on site and movement of drainage pits. We will make every effort to minimise noise by turning off vehicles when not in use.

The work will cause no disruption to your property and driveway access will be maintained at all times.

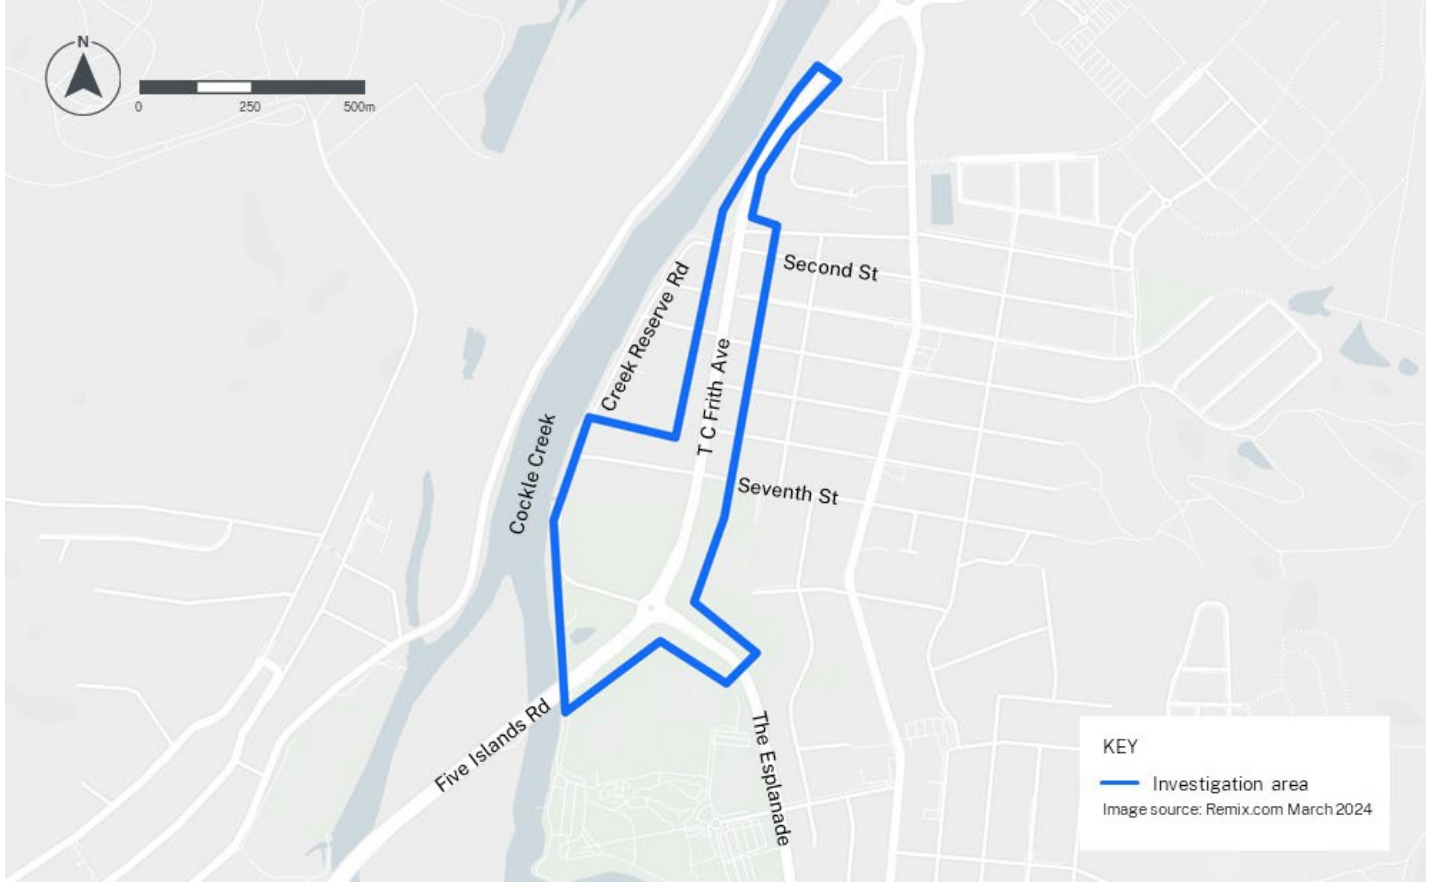

Traffic changes

There may be temporary traffic changes to ensure the work zone is safe for workers and road users.

Shoulder and single lane closures on approach to the roundabout with traffic control and a reduced 40km/h speed limit will be in place as required during night work.

Thank you for your patience during this important work.
