

Utility investigations along TC Frith Avenue and surrounding network from Wednesday 7 August 2024

Speers Point transport improvements

August 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is carrying out utility investigations along TC Frith Avenue, Five Islands Road, Creek Reserve Road and Seventh Street across Boolaroo and Speers Point to help inform future planning.

When and where we'll be working

We will be working in your area for two nights on **Wednesday 7 and Thursday 8 August 2024**, weather permitting.

To minimise impact to motorists, work will be carried out at night between **7pm and 5am**.

We will let you know in advance if we need to do any work outside these times.

We have included a map to show the investigation area where the surveys will be carried out.

What will this mean for you?

You may notice workers on-site in high vis clothing, using lighting to carry out the work.

Work will involve vehicles moving on-site that generate a small amount of noise and flashing lights. Some noise may be generated from workers talking on site and accessing utility pits. We will make every effort to minimise noise by turning off vehicles when not in use.

The work will cause no disruption to your property and driveway access will be maintained at all times.

Traffic changes

There may be temporary traffic changes to ensure the work zone is safe for workers and road users.

Shoulder and single lane closures with traffic control and a reduced 40km/h speed limit will be in place as required during night work.

Thank you for your patience during this important work.
