

Changed traffic conditions on the Kamilaroi Highway at Spring Creek Bridge

Spring Creek Bridge replacement

July 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Australian and NSW governments are funding the replacement of Spring Creek Bridge on the Kamilaroi Highway, 9.5km west of Narrabri, to improve safety for all motorists.

What work are we doing?

We will be diverting traffic on to a temporary sealed side track at Spring Creek in preparation for the commencement of the bridge replacement project later this year. The side track will be used to maintain safe, two-way traffic flow on the Kamilaroi Highway whilst construction of the new bridge is underway. Construction of the new bridge is expected to be completed in late 2025, weather permitting.

When we'll be working

Traffic is scheduled to be switched on to the side track on **Monday 22 July 2024**. We have included a map to show the location of the work.

You may notice:

- traffic control and signage in place
- reduced speed limits
- workers on foot
- machinery, which will generate some noise.

Traffic changes

There will be changed traffic conditions at the site to ensure the safety of workers and motorists. A reduced speed limit of 60km/h will be in place on the side track for the duration of the project.

Motorists should allow up to **five minutes of additional travel time**.

Please keep to speed limits and follow the direction of traffic controllers and signs.

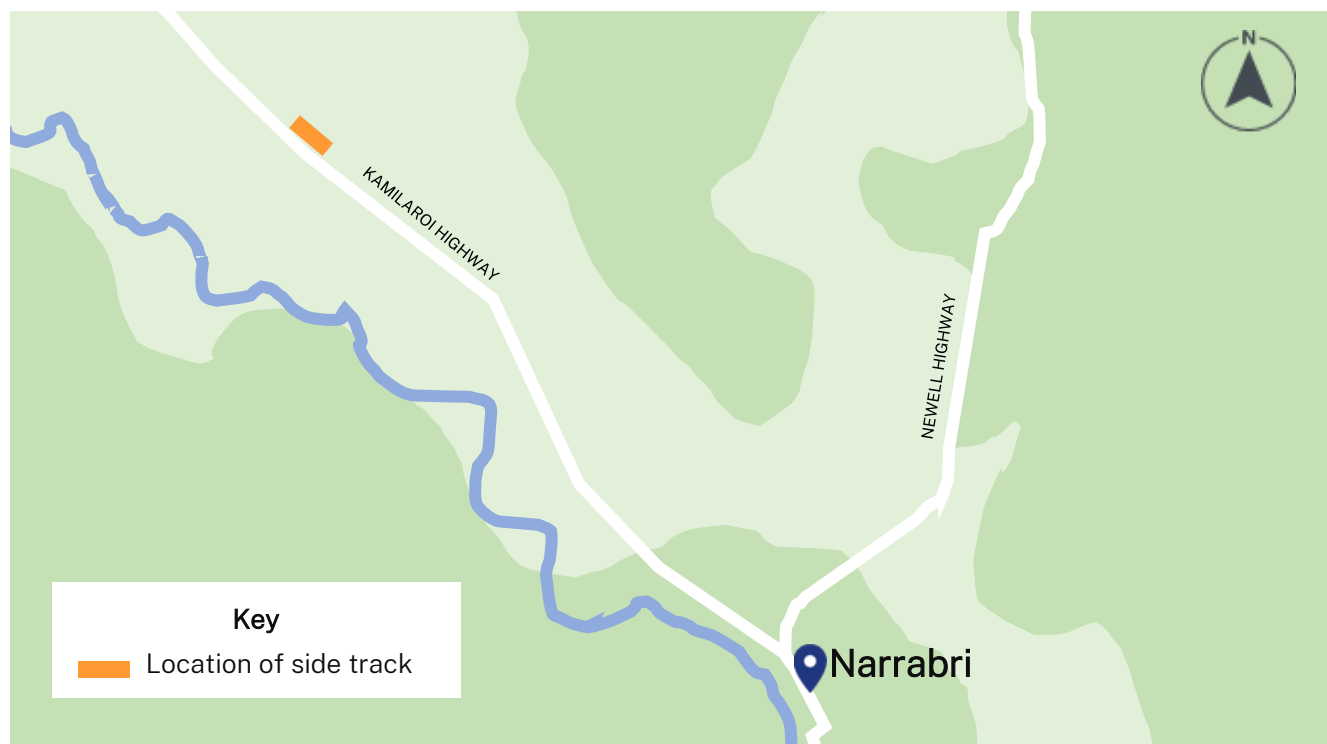

Motorists should be aware that the side track may be subject to flooding in the case of extreme weather events and we have planned for these possible closures with approved detours in place.
