

Access Improvements – St Peters Station

September 2024

Transport for NSW acknowledges the Gadigal and Wangal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is improving accessibility at St Peters Station.

Earlier this year, Transport for NSW completed upgrades to the station master's office and installed family accessible toilet facilities.

What work are we doing?

After listening to the community, we are designing a step-free pathway from Goodsell Street through May Lane to St Peters Station. This will improve accessibility for all, including people with prams and mobility devices, and bike riders.

During the work, we will:

- install a pathway around the stairs by removing the existing garden bed and retaining wall on Railway Lane
- remove some seating along Railway Lane to enhance access, and reinstate the area with pavers
- adjust services, including water and sewerage
- resurface the areas affected by the work
- install a mural on the external walls of the station booking office.

When and where we'll be working

Work will take place on May Lane and Railway Lane, St Peters, from **Saturday 7 September** until **mid-October 2024**.

Our works hours are **7am to 6pm, Monday to Friday** and **8am to 1pm, Saturday**.

What will this mean for you?

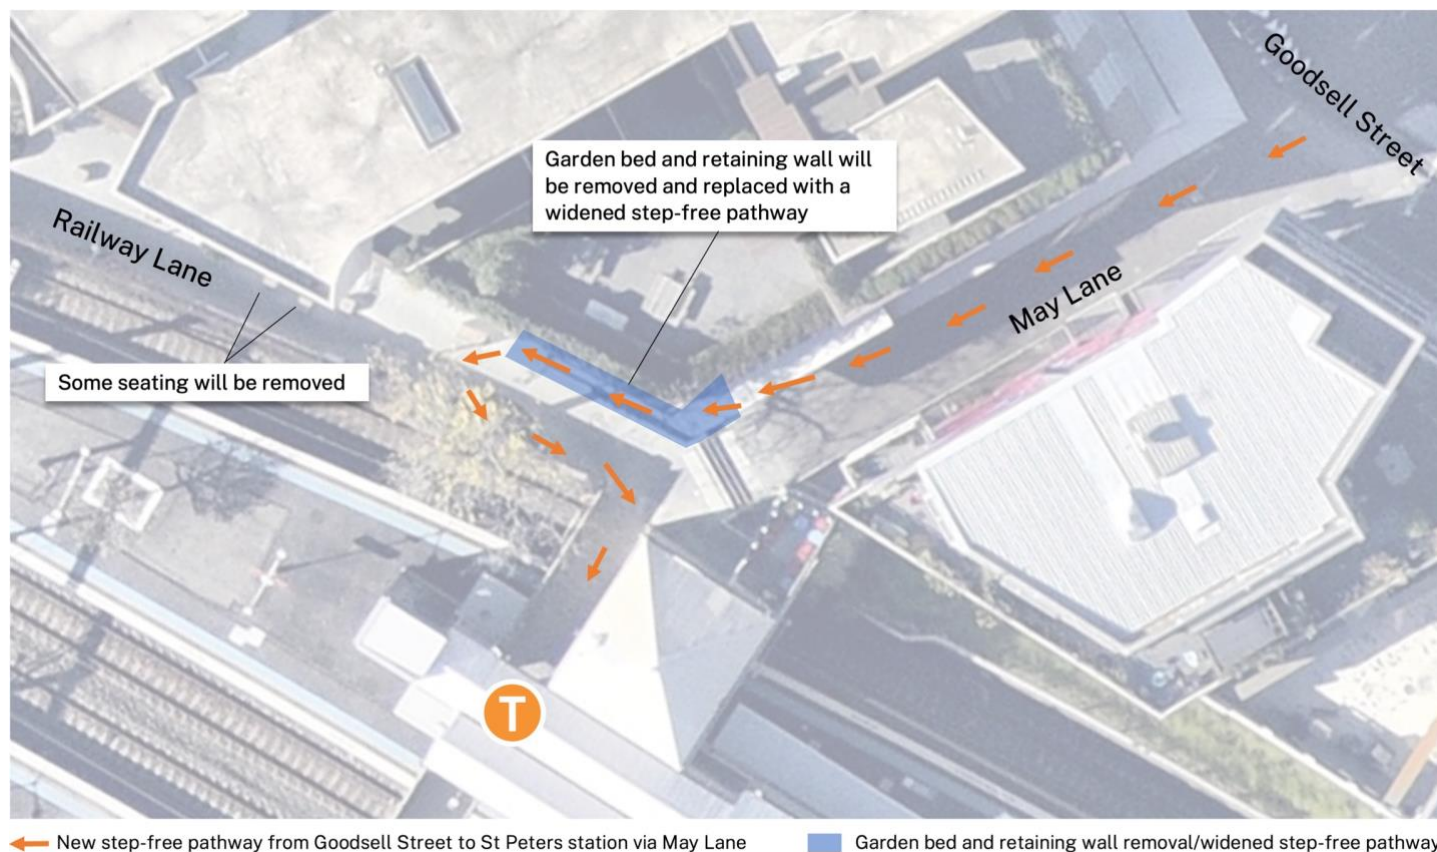

During our work, you may notice:

- noise from machinery and equipment, particularly during the demolition work
- increased construction traffic, vehicles and personnel
- temporary fencing around the work area, reducing the footpath width on Railway Lane
- timber boards will be temporarily placed along Railway Lane, limiting visibility from May Lane onto Railway Lane.

There will be no disruption to the access to the Station or the Domo 39 café.
