

October community update

Tuggerah Station Upgrade

September 2024

Transport for NSW acknowledges the Darkinjung people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The NSW Government is improving accessibility at Tuggerah Station

Transport for NSW is upgrading Tuggerah Station. The upgrade will provide a train station that is safe, inclusive and easy to use for all passengers - especially people with disability, older people, people with prams or luggage and others who might be experiencing mobility problems.

Project status update

Please note that new lifts and concourse are currently scheduled to be open to the public in October, with all facilities including the new public restrooms scheduled for early 2025.

Remaining finishing work is to be completed by June 2025. We will continue to keep the community informed as the project progresses.

What are we doing in October?

Work includes:

- general construction works, including delivery and removal of plant and materials
- adjustments to hoarding and fencing to facilitate construction works
- formwork, reinforcement and concrete pours
- crane movements to assist with construction
- earthwork activities including waste classification and removal of waste materials
- installation of utility connections for the station
- demolition of existing canopies
- demolition of existing ramps and overbridge
- demolition and excavation work and associated truck movements for import and export of materials.

We will use various items of equipment, including cranes, excavators, jack hammers, trucks including tipper, flat tray track and hiab, elevated work

platform, concrete trucks and concrete pumps, powered and manual hand tools.

Drivers will continue to see construction vehicle movements and traffic control on Pacific Highway and Anzac Road.

When we'll be working

Standard construction hours are **7am to 6pm Monday to Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

Out of hours

We are extending our construction to include two Sunday's shifts on **Sunday 29 September** and **Sunday 6 October**.

Working hours will be from **7am to 4pm**. This work will require the use of manual hand tools, with no plant equipment involved. A hand drill may be used occasionally, but not for the duration of the shifts.

Changes to the commuter carpark

From **6am Friday 25 October to 6.30pm Wednesday 6 November** a portion of the Bryant Drive commuter car park will be temporarily closed. Please see map below for further details.

To alleviate these impacts, there will be additional parking available at a nearby location, with shuttle buses available during peak travelling hours between **5am and 9am** and **2:30pm and 6:30pm** on **Tuesday 29 October, Wednesday 30 October, Thursday 31 October** and **Tuesday 5 November** to assist with transporting commuters to and from the train station. Signs will be in place to direct drivers.

The area will be utilised as a lay down area for crane and structural steelwork preparation work in preparation for demolition of the old pedestrian footbridge.

Other temporary car parking changes will continue at Tuggerah Station to allow for construction work.

Changes to Kiss & Ride

There will be reduced parking at the Kiss & Ride drop off area in October to facilitate deliveries and construction work Bryant Drive side.

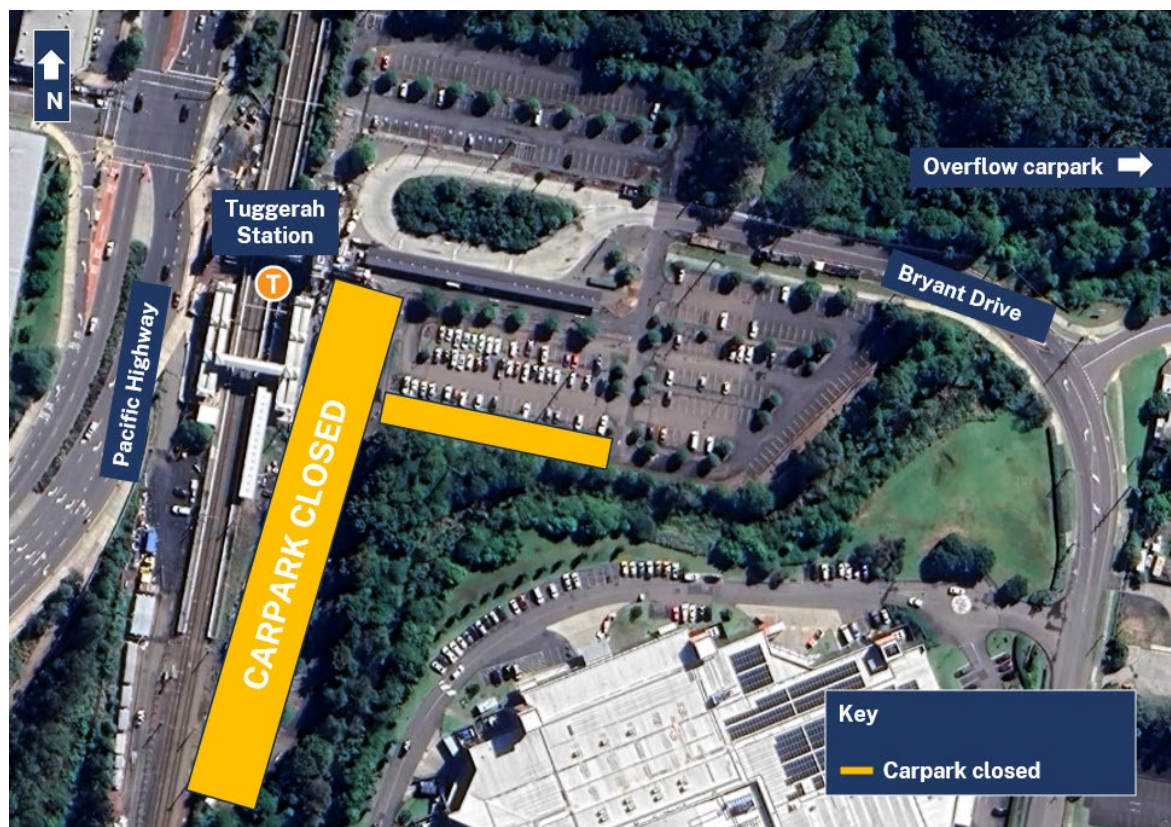

Managing our impacts

A traffic control team will be available to assist with any impacts to pedestrian movements.

This work may be noisy; however we aim to avoid impacts to the community and the environment where possible by:

- fencing off areas for the safety of commuters
- using noise blankets and turning off machinery and equipment when not in use.

Thank you for your patience as we carry out this important work.
