

Waterfall Stabling Yard and Platform Extension Project

More Trains, More Services

September 2024

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

This project is designed to simplify and modernise the rail network, delivering a range of benefits for rail customers through better infrastructure, new trains and extra services.

Finishing work on the Waterfall Stabling Yard and Platform Extension project is currently being completed.

What work are we doing in Heathcote?

In early September 2024, we will be demobilising from our site compound at Heathcote Station. This work will involve:

- removing site sheds, materials and equipment from our site offices
- restoring the site to its original condition and handing back to Sydney Trains.

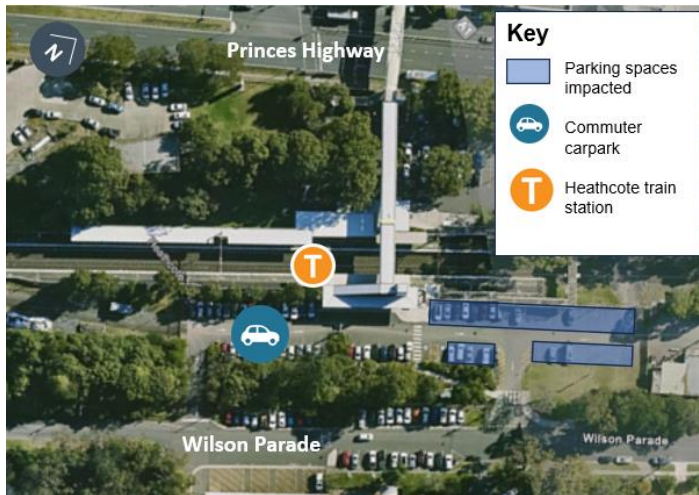

To subscribe to the email distribution list for this project, please contact projects@transport.nsw.gov.au

Temporary parking impacts

Between **6pm Tuesday 3 September and 6pm Friday 6 September**, up to 37 commuter car spaces at Heathcote Station, off Wilson Parade, will be unavailable to safely enable heavy vehicle access to and from site.
