Transport for NSW

Woodford Station Upgrade

Safe Accessible Transport

June 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Safe Accessible Transport program aims to make public transport safe, inclusive, and easy to use for all passengers, especially people with disabilities, older people, people with prams or luggage and others who may be experiencing mobility issues.

This program aims to achieve Disability Standards for Accessible Public Transport (DSAPT) compliance, improving amenity, access and safety and acknowledging the important role these locations have to the communities they serve.

Project status

Site surveys and utility searches have been completed.

Transport will soon engage a designer to commence the initial concept design for the Woodford Station Upgrade. Transport will then consult the community and other key stakeholders for their feedback on the initial concept design.

How will we engage and seek feedback from the community?

Transport for NSW (Transport) will engage with specific groups about accessibility upgrades to Woodford Station.

These specific groups include people with disabilities and carers, Aboriginal and Torres Strait Islander peoples, and women and children from the local community.

This will involve direct engagement with women and children to understand their perceptions of safety and collaborate Connecting with Country events to recognise the unique relationship between Aboriginal and Torres Strait Islander peoples and their ancestral lands.

Transport will invite feedback on the concept design and precinct improvements as the project progresses.

Have your say at our Accessibilty Workshops

We want to hear from people and carers with accessibility needs, about the design of the Woodford Station Upgrade.

We are holding two online design workshops to better understand what barriers exist when using Woodford Station, and how we could better design the proposed improvements, to remove those barriers.

If you would like to participate in our online workshops, please register your interest via the QR code or online at

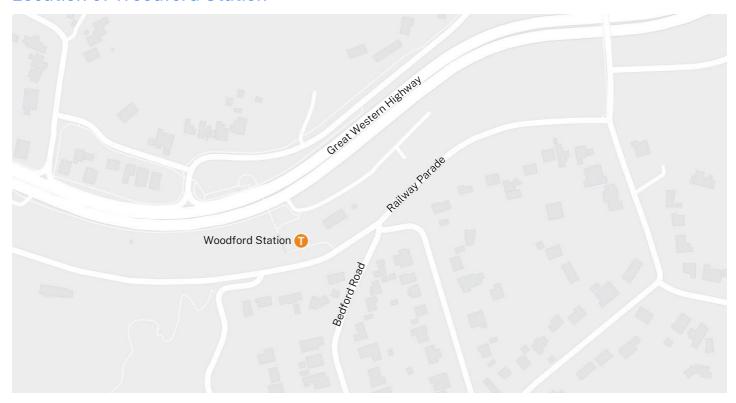

www.haveyoursay.nsw.gov.au/design-accessible-stations and we will be in contact with you to share all the important details.

There is also the option to request assistance should you need it to participate.
