

Culvert maintenance on the Newell Highway south of Forbes from Monday 5 August

July 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is carrying out routine culvert maintenance work on the Newell Highway south of Forbes.

What work are we doing?

The work will include partial replacement of the culvert located beneath the Newell Highway at the River Road intersection 1.83km south of Forbes. Minor concrete repairs to the remaining structure and vegetation control within the immediate vicinity of the culvert will also be carried out.

We have included a map to show the location of the work.

When we'll be working

We will be working between **7am** and **6pm** **Monday to Friday**, from **Monday 5 August**.

We expect to complete the work in **two weeks**, weather permitting. All work activities and dates are subject to weather and site conditions.

What will this mean for you?

Changed traffic conditions on the Newell Highway including a **reduced speed limit of 40km/h** will be in place during work hours which may affect travel times.

A full closure of the River Road turning lane will be in place for the duration of work, however access to River Road and properties will be maintained at all times. Southbound access to River Road will be from the centre lane, northbound access will remain unchanged.

A reduced speed limit of 60km/h will be in place outside of working hours.

Please keep to the reduced speed limits and follow the direction of the traffic controllers and signage.

You should allow up to five minutes extra travel time during this work.

For the latest traffic updates, you can download the Live Traffic NSW app, visit [livetraffic.com](https://www.livetraffic.com) or call 132 701.

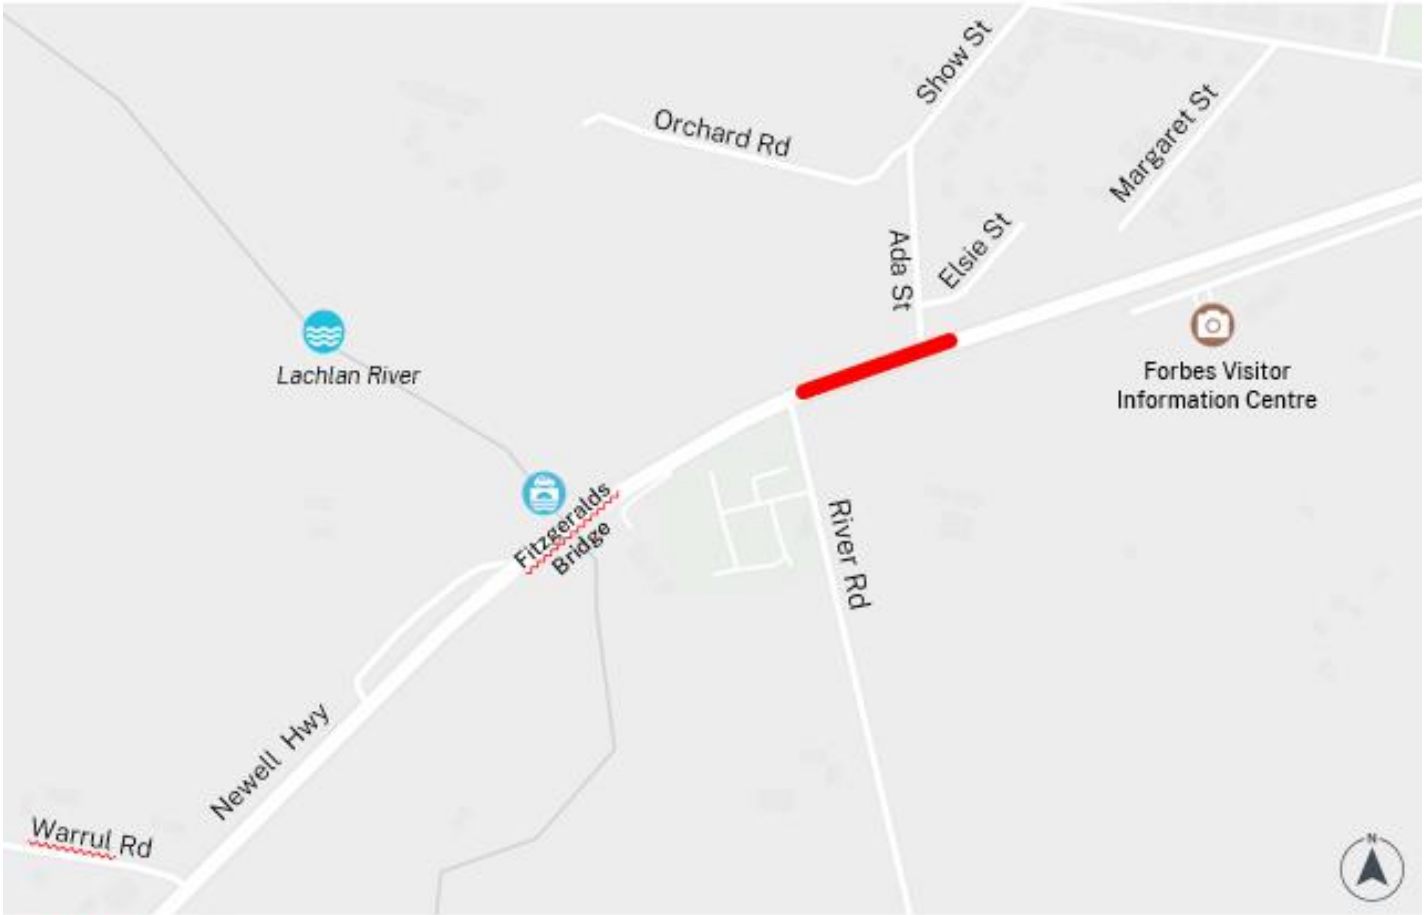

Managing our impacts

We aim to manage our work to minimise impacts to the community and the environment.

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

We understand that the work will generate some inconvenience and we thank you for your patience.
