

Doonside Station Upgrade Community Update

Transport Access Program

24 April 2024

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

What work are we doing?

In May, our work will include:

- installing an electrical protection screen at the end of the Cross Street ramp
- conducting defect rectification work across the station
- installing heritage interpretation artwork next to the lift (beside Eastwood Lane), and up on the footbridge.

Our work hours are **7am until 6pm, Monday to Friday** and **8am until 1pm on Saturdays**.

What will this mean for you?

You may notice:

- temporary fencing around our work areas
- intermittent periods of noise and vibration from machinery and equipment

- increase in construction vehicles and workers.

Changes to scheduled works

Work schedules are subject to change due to permits, weather and site conditions

Further notification will be provided should there be a significant change to the construction program.

Managing our work

There will be times when we'll create noise due to construction activities. But we'll try to keep it down by:

- turning off vehicles and equipment when not needed and using quiet beeping sounds when backing up
- using traffic control and signage to notify pedestrians, commuters and road users of any temporary changes required to facilitate our work.
