

# Road safety work continuing on Great Western Highway at the Pendle Way and Ettalong Road intersection, Pendle Hill

## Community Notification

January 2024

Australian Government

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is carrying out safety improvement work at the intersection of Great Western Highway, Pendle Way and Ettalong Road, Pendle Hill.

The work will involve extending the Great Western Highway right turn bays at the intersection by approximately 100 metres in each direction, to ease congestion and improve safety for all road users.

### Construction update

Since our last update in December 2023, we have:

- commenced installation of new drainage infrastructure
- removed and disposed of bonded asbestos material found in the central median, implementing control measures as per SafeWork NSW requirements
- commenced excavation in the central median to enable the extension of the right turn bays (in both directions).

### Updated work schedule

From **Sunday 4 February 2024**, we will only work at night. We will work up to five nights per week to complete the project as quickly as possible.

Our work hours will be from **Sunday to Thursday** between **8pm** and **5am** the next day.

We will not work on Fridays (after 5am), Saturdays or on public holidays.

We will provide a further update if the work schedule should change. We expect to complete the project, weather permitting, in May 2024.

### What will this mean for you and how will we manage it?

Our work may be noisy at times, but we will do everything we can to minimise our impacts, including:

- turning off equipment and vehicles when not in use
- using quieter equipment where possible
- completing the noisier work by midnight
- using noise blankets around the work site while we are completing noisier activities.

### Bus stop and traffic changes

**Bus stop changes:** The bus stop on Great Western Highway (Stop ID: 214567) near the intersection will be temporarily closed during our night work hours when we are working directly in front of the bus stop.

When this bus stop is closed, bus users will need to use the bus stop located on Pendle Way (Stop ID: 214568).

Traffic controllers will be on site to assist bus users during these times.

**Traffic changes:** There will be temporary lane closures to the lanes next to the centre median during our night work hours. Access will be maintained at all times for traffic in both directions.

At times, we may implement a contraflow traffic arrangement. Motorists unable to access properties or side streets within the contraflow are advised to use the next available side street after they exit the contraflow to redirect to their destination.

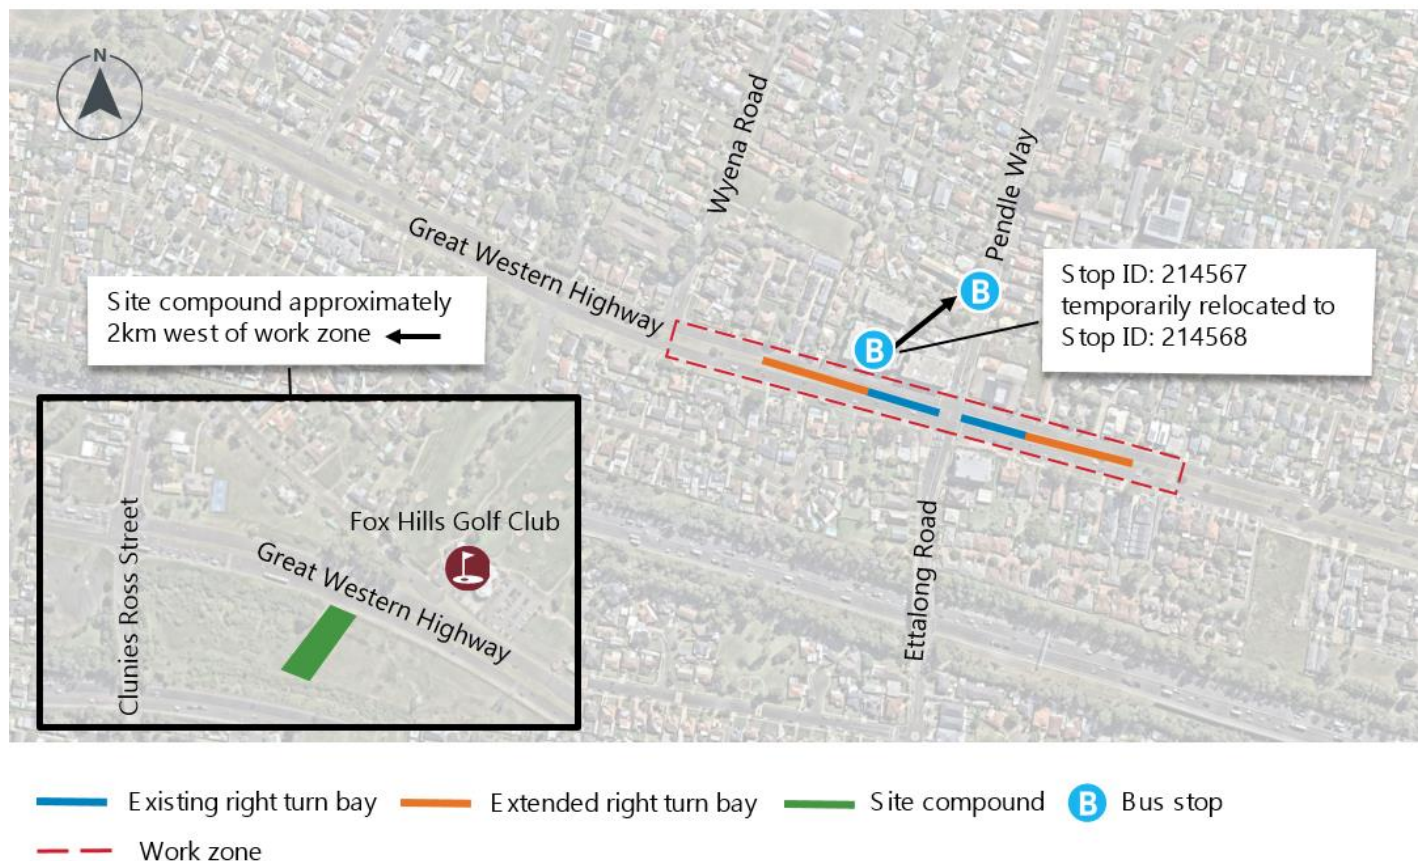

A 40 km/h speed limit will be in place while we are working, and a 60km/hour speed limit will be in place all other times.

Please keep to speed limits and follow the direction of traffic controllers and signs.

If you have any concerns about the work schedule, please contact our delivery partner using the details listed below.

Transport for NSW thanks the community for their patience while we complete this important work.
