

# Greenwich Point Wharf Upgrade

## Night work installation of new piles for pontoon

August 2024

Transport for NSW acknowledges the Cammeraygal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Greenwich Point Wharf is being upgraded as part of the Safe Accessible Transport program to make public transport safe, inclusive and easy to use for all passengers, especially people with disability, older people, people with prams or luggage and people with limited mobility.

### Upcoming night work

The steel lift shaft was successfully installed in July and we are now ready to install the pontoon and pivot piles for the new wharf.

For safety and accuracy, this work needs to be carried out at night when the water is at its calmest and there is less marine traffic.

### When we'll be working

Installation of the pontoon and piles is expected to take place over up to **6 weeknight shifts** between **Sunday 4 August 2024** and **Thursday 22 August 2024** from **10pm** and **5am**, weather and maritime conditions permitting.

For all other construction activities, work will continue to take place during standard work hours from 7am to 5pm.

### What the work involves

Transportation and installation of the new pontoon and piles will be carried out by a crane from a tugboat. Work includes barge lifting and pile screwing.

Equipment used includes a barge crane, tugboat, piling leader, a work punt, temporary lighting and hand tools. Pedestrian and vehicle access will be maintained via Lower Serpentine Road.

### Managing our impacts

Some of our work may be noisy at times. The noisiest work will take place from Sunday to Thursday nights to give residents some respite over the weekend.

To reduce noise impacts, pile hammering work will not be carried out through the night but likely in the early morning hours between 5am-7am. We will be turning off equipment when not in use and placing equipment and lights as far away from residents as possible.

Thank you for your cooperation while we carry out this important work.

### Bus changes

As notified in July, unrelated to the wharf upgrade, the new **267 bus route** will replace the **265 bus route** and will start to operate from August 2024. More information can be found at <http://www.transport.nsw.gov.au/buschanges>
