

Jervis Bay Road intersection upgrade

Princes Highway upgrade program

Construction update

October 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW governments are delivering an upgrade to the Princes Highway and Jervis Bay Road intersection at Falls Creek.

What work are we doing?

During October, work will continue within the project area including:

- changing the entrance to Willowgreen Road, which will be communicated to affected residents separately
- major earthworks and importing material for embankment construction
- building road surfaces on parts of the Princes Highway, Jervis Bay Road, Old Princes Highway and Willowgreen Road
- constructing the eastern roundabout
- gradually shifting traffic on to the widened Jervis Bay Road surface
- commencing the eastern access road and multi-modal transport facility
- installing and/or relocating safety barriers and signage
- completing telecommunication relocations
- continuing electrical relocations
- drainage works, including cuts across existing roads.

When we'll be working

From **Tuesday 1 to Thursday 31 October 2024** our standard work hours will be Monday to Friday

between 7am and 6pm, and on Saturdays between 8am and 1pm.

Where required, night work will be carried out for up to 10 night shifts during the month. Night work hours will be between 6pm and 7am.

All work is subject to weather conditions. We will keep the community informed of any changes.

Temporary traffic changes

During work hours there will be some temporary traffic changes to ensure the work area is safe.

Lane/shoulder closures and reduced speed limits of 60 km/h or 40 km/h may be in place on the Princes Highway, Old Princes Highway, Willowgreen Road, Jervis Bay Road and Gardner Road.

Some of the utility relocation and drainage work will be done during night shifts to minimise impacts to road users during peak times, resulting in lane closures where vehicles will be directed under traffic control.

Closures of Jervis Bay Road may also be required during some of the night shifts. Separate notifications will be issued as dates and detours are confirmed.

When barrier installation activities occur, we will move quickly and access to driveways will not be impacted.

Boom gates will be in place at the intersection of Jervis Bay Road and the Princes Highway to assist with increased school holiday traffic from **Friday 27 to Sunday 29 September, Friday 4 to Monday**

7 October, and Friday 11 October 2024 from 9am to 5pm. Motorists are requested to drive with extra care when boom gates are in operation.

Project work will continue throughout this period.

Motorists are advised to drive to conditions and follow the directions of signs and traffic control. During night work, motorists are advised to allow an extra five minutes' travel time.

What will this mean for you?

Some activities need to be carried out at night to minimise traffic disruptions and reduce safety risks to our workers and road users.

We will not work more than two consecutive nights in the same area. Our work may be noisy at times and there may be construction lighting during this time, however we will do everything we can to minimise these impacts including:

- using non-tonal reversing beepers on equipment
- turning machinery off when not in use
- carrying out noisier works early during the night shift and
- turning off lights when not required.

Transport for NSW thanks the community for their patience during this time.
