

Jervis Bay Road intersection upgrade

Princes Highway upgrade program

Construction update

December 2024 and January 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW governments are investing in an upgrade to the Princes Highway and Jervis Bay Road intersection at Falls Creek.

What work are we doing?

The project site will shut down from **Saturday 21 December 2024 until Monday 6 January 2025**.

Work will continue outside these dates including:

- major earthworks and importing material for embankment construction
- continuing the bridge foundation with piling works and retaining walls under way
- opening the new entrance to Willowgreen Road, which will be communicated to affected residents separately
- building road surfaces on parts of the Princes Highway, Jervis Bay Road, Old Princes Highway and Willowgreen Road
- shifting traffic to the new eastern roundabout to allow Jervis Bay Road to remain open while major bridge works are in progress (more information will be provided prior to changes being implemented)
- continuing the eastern access road and multi-modal transport facility
- installing and/or relocating safety barriers and signage
- continuing electrical relocations and drainage work.

When we'll be working

Except during shut down dates, work will be carried out between **Monday 2 December 2024 and Friday 31 January 2025**. Our standard work hours will be Monday to Friday between 7am and 6pm, and on Saturdays between 8am and 1pm.

No work will take place on **Monday 27 January 2025**.

Where required, night work will be carried out for up to 10 night shifts each month. Night work hours will be between 6pm and 7am.

All work is subject to weather conditions. We will keep the community informed of any changes.

Temporary traffic changes

During work hours there will be some temporary traffic changes to ensure the work area is safe.

Lane/shoulder closures and reduced speed limits of 60 km/h or 40 km/h may be in place on the Princes Highway, Old Princes Highway, Willowgreen Road, Jervis Bay Road and Gardner Road.

Some of the utility relocation and drainage work will be done during night shifts to minimise impacts to road users during peak times, resulting in lane closures where vehicles will be directed under traffic control.

When installing and/or relocating temporary safety barriers, we will move quickly along the road, and access to driveways will not be impacted.

Boom gates

To assist movements at the intersection during the holiday period, boom gates will be in use at various peak travel periods from **Friday 20 December 2024 until Sunday 2 February 2025** between 9am and 5pm.

Motorists are advised to drive to conditions and follow the directions of signs and traffic control. During night work, motorists are advised to allow an extra five minutes' travel time.

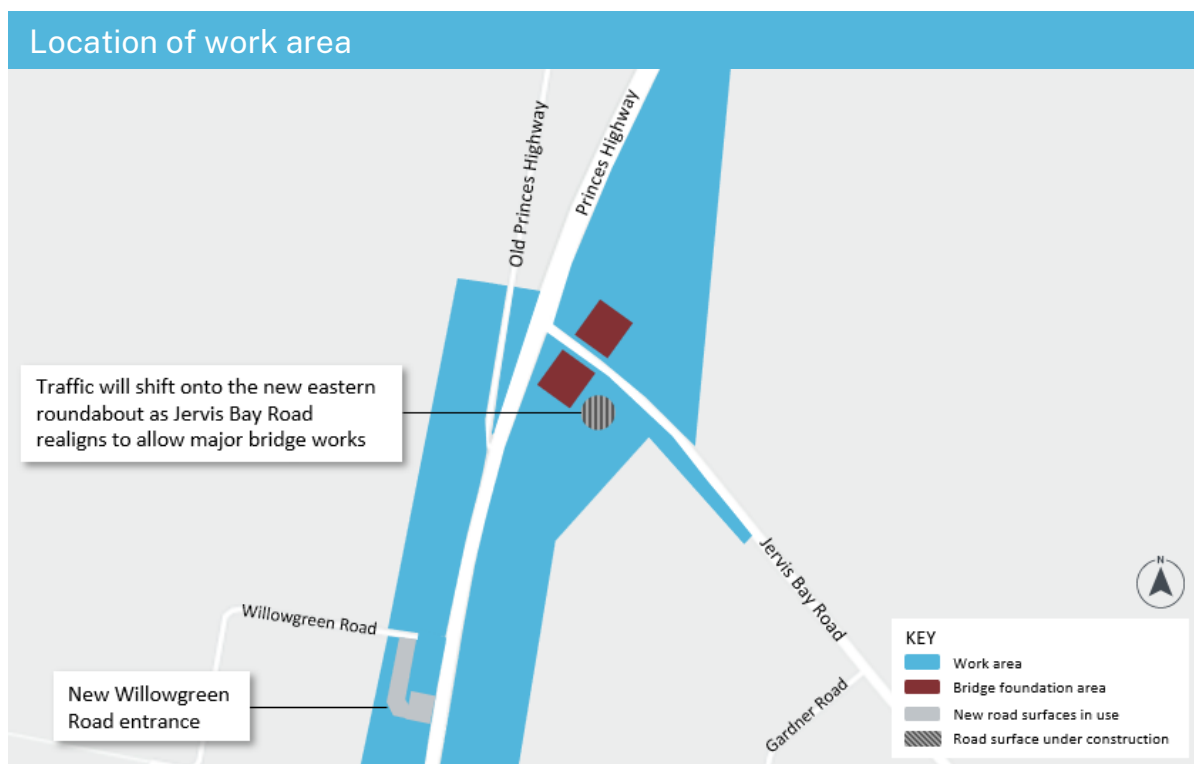

What will this mean for you?

Some activities need to be carried out at night to minimise traffic disruptions and reduce safety risks to our workers and road users.

We will not work more than two consecutive nights in the same area.

Our work may be noisy at times and there may be construction lighting during this time, however we will do everything we can to minimise these impacts including using non-tonal reversing beepers on equipment, turning machinery and lighting off when not in use or required, and carrying out noisier works early during the night shift.

Transport for NSW thanks the community for their patience during this time.

Contact us

For questions and enquiries please use the contact details below. The project does not have a community display centre, however we are happy to arrange face-to-face meetings on request.
