

Work continuing on King Georges Road upgrade

King Georges Road upgrade

March 2024

Australian Government

Transport for NSW acknowledges the Bidjigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Australian and NSW Governments are upgrading King Georges Road between Stoney Creek Road, Beverly Hills and Forest Road, Hurstville to improve safety, reduce congestion and improve journey times for road users.

What work are we doing?

- Earthworks in the north and southbound verge
- Utility relocation and installation
- Stormwater drainage works
- Property adjustments
- Realignment of Sydney Water culvert at Clarence and Percival Street
- Pavement construction, asphaltting, line marking and kerb and gutter construction.

When and where we'll be working

From **March 2024 to May 2024**, our night work hours will be **Sunday to Thursday** between **8pm and 5am** on the road alignment and **6am** within the site compound. We will work a maximum of five nights per week. Our day work hours will be from **7am to 6pm Monday to Friday**, and **8am to 1pm on Saturdays**, weather and site conditions permitting.

No work will take place on Sundays during the day, or on public holidays, without prior notification.

What will this mean for you?

You may notice:

- Workers and vehicles
- Reduced speed limits and pedestrian detours
- Noise from machinery and equipment.

Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- Fencing for safety and security
- Installing noise blankets, where possible
- Reducing noise, where possible
- Completing noisier activities like saw-cutting and jack-hammering by midnight, where possible

Traffic switch

Late March will see the completion of the second traffic switch on King Georges Road, weather permitting.

The main carriageway will be shifted west onto the newly constructed road pavement.

The new traffic changes will allow us to commence works behind concrete barriers along the southbound lanes of King Georges Road.
