

Mount Ousley interchange

Upcoming night work

March - April 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are building a new interchange on the M1 Princes Motorway at the base of Mount Ousley to improve connectivity, safety and efficiency for those travelling through the gateway to Wollongong.

What work are we doing?

While building the Mount Ousley interchange, we will need to work at night when working near live traffic to minimise traffic disruptions and ensure the safety of workers and road users.

In addition to day works, night work may be carried out **Monday to Thursday between 6pm and 7am, from Monday 25 March until Thursday 18 April 2024.**

Work carried out will include survey, vegetation removal, pavement and geotechnical investigations, delivery of containers and site sheds and installation of signs.

For the locations of this work, please refer to the map over the page.

No work will be carried out over the Easter holiday period from Thursday 28 March until Monday 1 April.

How will this work affect you?

There will be some noise and lighting associated with this work. Equipment used will include light vehicles and trucks, lighting towers, generators, vacuum trucks, drill rig, excavators, chainsaws and cranes.

We will make every effort to minimise noise and complete this work as quickly as possible.

Traffic impacts

During the night work, traffic control and reduced speed limits will be in place for:

- Southbound shoulder and slow lane closures of M1 Princes Motorway between Mount Ousley Road and Northfields Avenue
- Northbound shoulder and slow lane closures of M1 Princes Motorway between Northfields Avenue and Mount Ousley Road
- Westbound lane closure with stop slow traffic control on Mount Ousley Road
- Stop slow traffic control on the northbound M1 Princes Motorway on and off ramps, Northfields Avenue, Irvine Street and the M1 Princes Motorway.

Road users are advised to drive to the conditions and follow the directions of signs and traffic control.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
