

Mount Ousley interchange

Upcoming night and weekend work

July 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are building a new interchange on the M1 Princes Motorway at the base of Mount Ousley to improve connectivity, safety and efficiency for those travelling through the gateway to Wollongong.

What work are we doing?

Generally, work will take place during the day, Monday to Friday between 7am and 6pm, and Saturday between 8am and 1pm.

While building the Mount Ousley interchange, we will need to work at night when working near live traffic to minimise traffic disruptions and ensure the safety of workers and road users.

In addition to day work during standard work hours, night work will be carried out as required between 7pm and 6am, Mondays to Thursdays, from **Monday 1 July until Thursday 1 August 2024**.

Work being carried out in July will include survey, vegetation removal, pavement and geotechnical investigations, utility relocations, delivery of containers and site sheds and installation of signs.

Utility work will also be carried out on Irvine Street **Saturday 6 July and Saturday 13 July** between 8am and 6pm and **Sunday 14 July** 8am and 2pm.

For more information and the locations of work, please refer to the table and map over the page.

How will this work affect you?

There will be some noise and lighting associated with this work. Equipment will include light vehicles and trucks, lighting towers, generators, vacuum trucks, drill rigs, excavators, chainsaws and cranes.

We will make every effort to minimise noise and complete this work as quickly as possible.

Traffic impacts

During the work, traffic control, changed traffic conditions, lane and road closures and reduced speed limits will be in place. Road users are advised to drive to the conditions and follow detours and the directions of signs and traffic control.

For traffic impacts during this work, please refer to the table over the page.

Electronic message signs will advertise road closure dates in advance and any changes to dates due to weather impacts.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW app.
