

Tree removal at Thompson Street in Dubbo

Newell Highway Upgrade – New Dubbo Bridge project

April 2024

Transport for NSW acknowledges the Wiradjuri people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The New Dubbo Bridge project will improve traffic congestion in Dubbo and enhance access across the Macquarie River during flood events.

What you need to know

From Thursday 18 April, we will be removing trees from Thompson Street, near the intersection of Whylandra Street and opposite Chifley Drive.

The trees are being removed to facilitate new pavement construction and the installation of new storm water pipes.

Tree and vegetation removal & replanting

To enable these works, we need to remove around four trees along the southern side of Thompson Street. Our landscape designers aim to minimise or avoid tree removal where possible.

The trees were assessed for removal as part of the Review of Environmental Factors (REF).

We have a specific landscaping design in place, which has been reviewed by the Dubbo Regional Council. This design includes the planting of various species of plants aimed at offsetting the tree removal required for construction.

When and where we'll be working?

Work will take place in our work area next to Thompson Street. We have included a map over the page showing the location of works.

We'll be working **7am to 6pm, Monday to Friday and 8am to 1pm, Saturday.**

What will this mean for you?

Tree removal will require the use of machinery such as chainsaws, excavators, elevated work platforms and light vehicles.

We will do everything we can to reduce the impact of noise on businesses and residents.

How are we minimising impacts of our work?

- Reducing our noise as much as possible
- Turning off machinery and equipment when not in use
- Repurposing any trees for mulch
- Replanting / offsetting trees as part of the project to reinforce our commitment to sustainability.
