

Nightwork for essential pavement maintenance on the Newell Highway in Dubbo from Sunday 11 August

August 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is carrying out essential maintenance work on the Newell Highway in Dubbo.

What work are we doing?

The work will include asphaltting to repair the damaged road surface on Erskine Street, between Darling Street and east of Bourke Street. We have included a map to show the location of our work area.

When we'll be working

We will be working between **7pm** and **5am** **Sunday to Friday**, from **Sunday 11 August**. We expect to complete the work in **four nights**.

All work activities and dates are subject to weather and site conditions.

What will this mean for you?

There may be temporary impacts to vehicle and pedestrian access while the work is carried out. Please ensure **vehicles are parked off-street prior to the commencement of work at 7pm each night** for the **four-night duration of the works**.

There will be some temporary traffic changes to ensure the work zone is safe. The **road will remain open with single lane closures and a 40km/h speed limit** in place during work hours which may affect travel times. The speed limit will return to the posted speed limit outside of

work hours. Motorists should allow up to **five minutes** extra travel time.

There may also be light vehicle local road detours in place during work hours.

Please keep to speed limits and follow the direction of traffic controllers and signs.

For the latest traffic updates, you can download the Live Traffic NSW app, visit [livetraffic.com](https://www.livetraffic.com) or call 132 701.

Detour for heavy vehicles

There will be a detour in place for heavy vehicles for **two night shifts, on 13 and 14 August**.

Heavy vehicles need to detour via Whylandra Street/Thompson Street/Mitchell Highway (Narromine Road)/ Bunglegumbie Road/Troy Bridge Road. Motorists should allow for **20 minutes extra travel time**.

We have included a map to show the detour route for heavy vehicles.

Managing our impacts

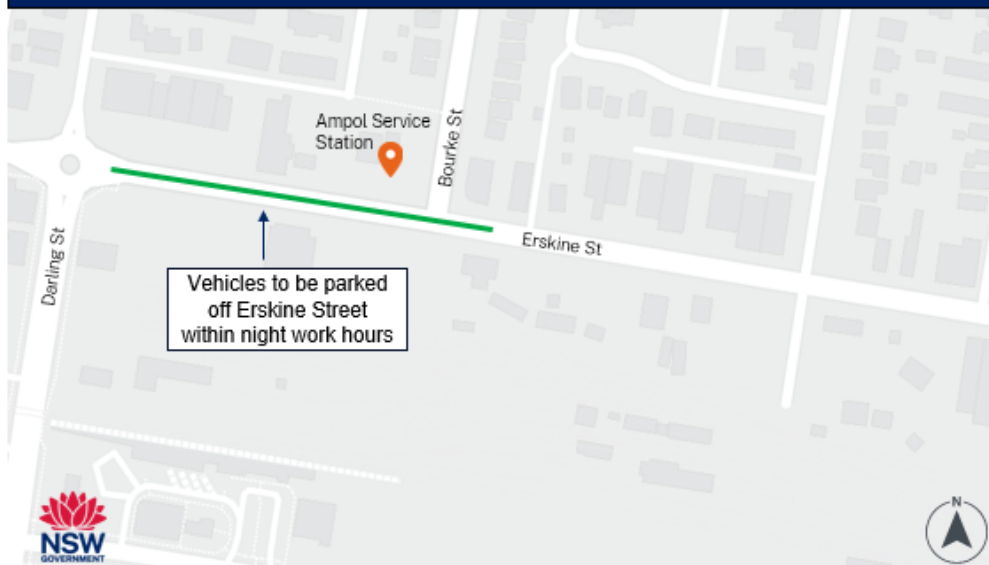

We aim to manage our work to minimise impacts to the community and the environment.

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by completing louder activities earlier in the evening and turning off machinery and vehicles when not in use.

We understand that the work will generate some inconvenience and we thank you for your patience.
