

Newtown to Redfern Signalling Upgrade

More Trains, More Services

Dear neighbour,

The More Trains, More Services program is simplifying and modernising the rail network. Passengers will be able to access more services on a simpler and more reliable network through the delivery of better infrastructure, new trains and extra services.

In March 2024 we will use two laydown areas on **Carriageworks Way** and **Stores Street** to facilitate work inside the rail corridor. The areas will be used for storage of machinery and equipment, worker briefings and parking as shown on the map overleaf.

Standard construction hours are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays**. The areas will also be used during a Sydney Trains trackwork period from **10am Friday 8 March until 2am Monday 11 March 2024**.

During this period, you may notice traffic controllers on Stores Street as they safely guide construction vehicles and other road users through the area. **Driveway access to properties on Carriageworks Way and Stores Street will be maintained at all times.**

If you would like more information about the work, please email us at projects@transport.nsw.gov.au or call **1800 684 490**.
