

Newtown to Redfern Signalling Upgrade

More Trains, More Services

May 2024

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The More Trains, More Services program is designed to simplify and modernise the rail network.

What work are we doing?

In May 2024 we will use an area on **Gladstone Street** to facilitate work inside the rail corridor.

The area will be used for storage of machinery and equipment, worker briefings and parking as shown overleaf.

When and where we'll be working

Standard construction hours are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

The area will also be used during a Sydney Trains trackwork period from **10pm Friday 10 May to 2am Monday 13 May 2024.**

During this period, you may notice traffic controllers on Gladstone and Station streets as they safely guide construction vehicles and other road users through the area.
