

Nightwork for essential pavement maintenance on the Mid Western Highway, Cowra from Thursday 22 August

August 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is carrying out essential maintenance work along the Mid Western Highway in Cowra.

What work are we doing?

The work will include removal and replacement of asphalt to repair damaged road surfaces at the following locations:

- Lachlan Street and Kendal Street intersection including sections of the bridge pavement at this intersection.
- Lachlan Street and Redfern Street intersection.

We have included a map to show the location of our work area.

When we'll be working

We will be working between **7pm** and **5am** **Sunday to Friday**, from **Thursday 22 August**.

We expect to complete the work in **6 nights**, weather permitting.

What will this mean for you?

There may be temporary impacts to vehicle and pedestrian access while the work is carried out. There will also be some temporary traffic changes to ensure the work zone is safe.

Please ensure **vehicles are parked off-street prior to the commencement of work at 7pm each night** for the **duration of the works**.

The **road will remain open with single lane closures, intermittent stop/go and a 40km/h speed limit** in place during work hours which may affect travel times.

Motorists should allow up to **five minutes** extra travel time.

For 3 nights, weather permitting, traffic will be stopped intermittently on both approaches to the bridge, **between the hours of 11pm and 4am**, to allow repair and asphaltting work on the bridge pavement. **This delay is expected to be up to 20 minutes.**

There may also be **local road detours** in place during these work hours. Please keep to speed limits and follow the direction of traffic controllers and signs.

Managing our impacts

We aim to manage our work to minimise impacts to the community and the environment.

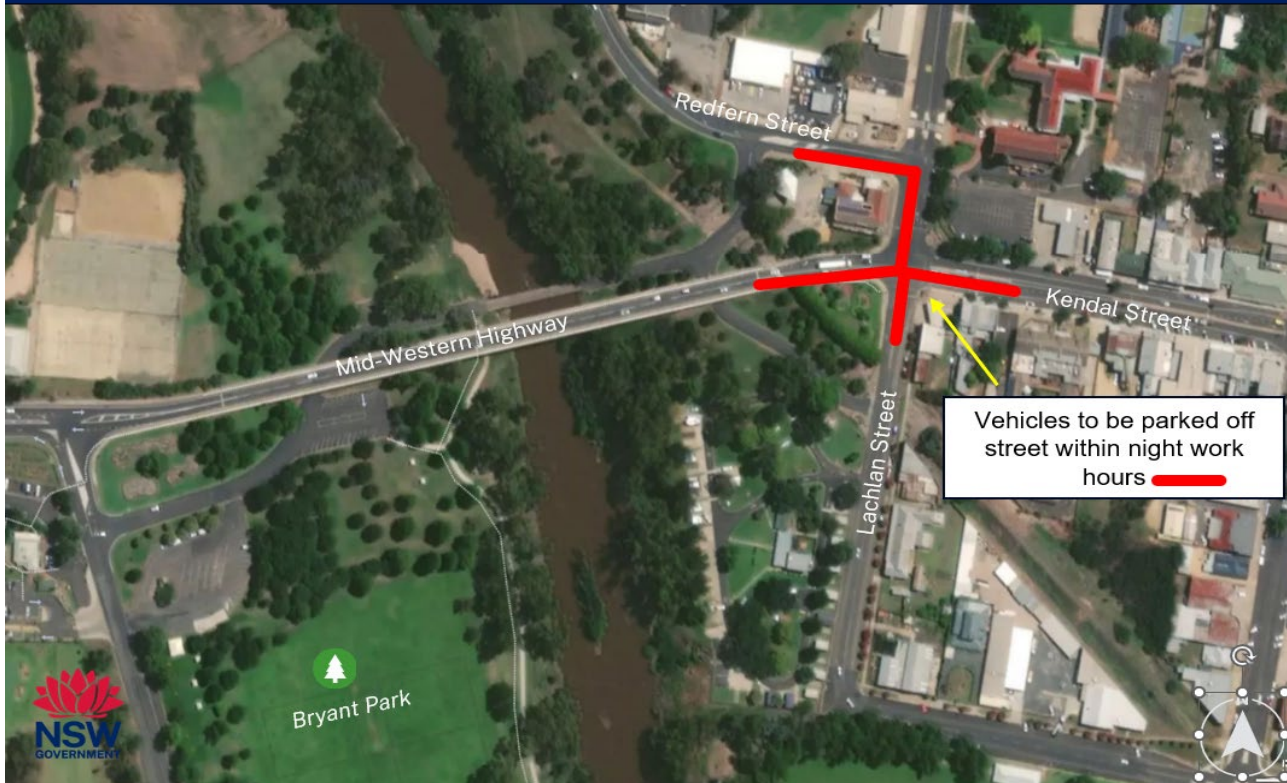

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by completing louder activities

earlier in the evening and turning off machinery and vehicles when not in use.

We understand that the work will generate some inconvenience and we thank you for your patience.
