

Transport for NSW

## Road investigation work

October to December 2022

Transport for NSW is carrying out road surface investigation work in your area to inform future road surfacing projects

Due to wet weather events experienced across Sydney since early 2022 Transport for NSW has identified the need to carry out road pavement investigation work in your area. The work will be carried out between **Wednesday 5 October** and **Thursday 22 December 2022** and will involve drilling into the road surface to collect samples.

The investigation work will take between **0.5 to 2 shifts** to complete and will be carried out at night to minimise disruption to traffic and reduce safety risks to our workers and motorists. Lane closures will be in place and may affect travel times.

Our **night work hours** will be between **8pm** and **5am** from **Sunday to Friday**. We will not work on public holidays.

The work will not be overly noisy to residents as we will be moving continuously along the road collecting samples and not working in the same location for more than one hour.

An investigation site has been identified near your property. If you would like more information on the specific date, time and location of when we will be working near your property, please contact our delivery partner Fulton Hogan on **1800 568 981** or **info.river@fultonhogan.com.au**.

Transport for NSW thanks the community for their patience while we complete this essential investigation work.

## Wet weather road resurfacing projects completed this year

Transport for NSW has completed a number of wet weather emergency and urgent pavement repair projects across Sydney since early 2022. The majority of this work has involved replacing sections of asphalt where there have been significant defects such as potholes, cracking, or uneven road surfaces.

**152 sites completed**

**1600 construction hours**

**13,826 tonnes of asphalt laid**

**approx. 7400 tonnes of asphalt recycled**
