

Priority road repair work

September 2022

Transport for NSW is continuing priority road repairs in your area until 18 November 2022.

Due to wet weather events experienced across Sydney earlier this year, Transport for NSW has identified and repaired a number of road locations requiring priority road pavement repairs. The majority of this work has involved replacing sections of asphalt where there have been significant defects such as potholes, cracking, or uneven road surfaces. This work has improved road safety by providing a smoother road surface and consistent driving conditions.

In May and July 2022, Transport for NSW notified you that road pavement defects had been identified in your area. So far, we have carried out road repairs in over 70 locations across Sydney, with approximately 10 locations still to be completed. We will continue to carry out these road repairs until **Friday 18 November 2022**.

Most of this maintenance work will take place at night, however some work will take place during the day, where safe to do so. The majority of this work, depending on the size of the area, will take between **0.5 to 2 shifts** to complete.

Our **night work hours** will be between **8pm** and **5am** from **Sunday** to **Friday**. Our **day work hours** will be between **7am** and **6pm** from **Monday** to **Friday**. We will not work on Saturdays or public holidays.

We will do everything we can to minimise noise impacts, including using quieter equipment where we can, turning off equipment and vehicles when they are not in use, and completing the noisier tasks such as removal of existing asphalt earlier in the evening.

If you would like more information on the specific date, time and location when we will be working near your property, please contact our delivery partner Fulton Hogan on 1800 568 981 or info.river@fultonhogan.com.au.

Transport for NSW thanks the community for their patience while we continue to complete this essential maintenance work.
