# 1 Introduction

The following procedure contains details of the licensing/authorisation status of Sydney Trains signalling personnel and Non-Sydney Trains signalling personnel (when engaged by Sydney Trains from time to time) to certify signalling infrastructure and systems fit for purpose, in the testing, commissioning, de-commissioning and or maintenance phases of its life-cycle. Also included is the list of Authorised Officers approved to conduct Signal Licensing Board assessment/examination for the signalling discipline.

Furthermore, this document lists relevant signalling personnel accreditation in terms of the initial set-up, test and certification of track circuits & the programming, test and commissioning of Cerberus level crossing monitors.

This document is to be considered an active document that will be updated regularly as a person's status changes or new personnel are added or others removed from the various lists.

For detail regarding an officer's authorisation authority, the relevant procedures and standards are to be read when viewing the various lists:

- Sydney Trains MN S 41412
- Sydney Trains RG S 41415 (this document)
- Sydney Trains PR S 41419
- Sydney Trains PR S 40001
- RailCorp ESG 002
- Sydney Trains PR S 47111.

## 1.1 Signalling Personnel Listings

The listings detailed below indicate the status for the following levels of signalling classification:

### 1.1.1 Signal Engineer Field (ADI01)

**Sydney Trains Licensed Signal Engineer:** The list details the Signal Engineer's currency regarding their signalling licence status. Any restriction relating to the use of their licence is shown in the comments field. Also shown is their full locking certificate accreditation status.

**Non-Sydney Trains Licensed Signal Engineer:** The list details the Non-Sydney Trains Signal Engineer's currency regarding their signalling licence status. Any restriction relating to the use of their licence is shown in the comments field. Also shown is their full locking certificate accreditation status.

### 1.1.2 Control Systems Engineer (ADI02)

**Sydney Trains Licensed Control Systems Engineer:** The list details the Control Systems Engineer's currency regarding their control systems licence status. Any restriction relating to the use of their licence is shown in the comments field.

**Non-Sydney Trains Licensed Control Systems Engineer:** The list details the Non-Sydney Trains Control Systems Engineer's currency regarding their control systems licence status. Any restriction relating to the use of their licence is shown in the comments field.

OFFICIAL

**Control Systems Commissioning:** Details of competency for control systems commissioning and engineering capability are shown on the particular control system personnel 'Certificate of Competency' issued by the Professional Head Signalling & Control Systems.

### 1.1.3 Signal Electrical (ASI01)

**Sydney Trains Licensed Signal Electrician:** The list details the Sydney Trains Signal Electrician person's currency regarding their signalling licence status. Any restriction or testing accreditation relating to the use of their licence is shown in the comments field.

**Non-Sydney Trains Licensed Signalling Electrician:** The list details the Non-Sydney Trains Signal Electrician person's currency regarding their signalling licence status. Any restriction or specific accreditation relating to the use of their licence is shown in the comments field.

### 1.1.4 Control Systems (ASI02)

**Sydney Trains Licensed Control Systems Technician:** The list details the Sydney Trains control systems person's currency regarding their control systems licence status. Any restriction or testing accreditation relating to the use of their licence is shown in the comments field.

**Non-Sydney Trains Licensed Control Systems Technician:** The list details the Non-Sydney Trains control systems person's currency regarding their control systems licence status. Any restriction or specific accreditation relating to the use of their licence is shown in the comments field.

### 1.1.5 Signals Mechanical (ASI05)

**Sydney Trains Licensed Signal Mechanical:** The list details the Sydney Trains Signal Mechanical person's currency regarding their signalling licence status for Assistant Sectioner, Sectioner, Ganger, and Interlocking Fitter.

**Non-Sydney Trains Licensed Signal Mechanical:** The list details the Non-Sydney Trains Signal Mechanical person's authorisation and currency regarding their signalling licence status for Assistant Sectioner, Sectioner, Ganger, and Interlocking Fitter.

### 1.1.6 Signals Ancillary (ASI06)

**Sydney Trains Licensed Signal Ancillary:** The list details the Signal Ancillary person's authorisation and currency regarding their signalling licence status for Signal Linesman, Airline Fitter, Rail Bonder, Locksmith, Cable Locator and Cable Jointer.

### 1.1.7 Signals Authorised Person (ASI07)

**Sydney Trains Authorised Signalling Personnel:** The list shows details of Sydney Trains signalling persons who are not licensed, but are authorised to perform limited signalling work in live signalling locations (determined by their certificate of competency) or perform limited testing or assist in testing (in accordance with their letter of accreditation issued by a Licensing Board), as directed by a suitably licensed person.

**Non-Sydney Trains Authorised Signalling Personnel:** The list shows details of Non-Sydney Trains signalling personnel who are not licensed, but are authorised to perform limited signalling work in live signal locations, or perform limited testing or assist in testing (determined by their certificate of competency), as directed by the designated Sydney Trains Commissioning Engineer, in accordance the process described in MN S 41412.

OFFICIAL

**Approved Signalling Personnel accredited for Set to Work, Test and Certification of Track Circuits:** The list shows details of approved signalling personnel accredited to undertake initial set-up, test and certification of track circuits – limited to track circuit types as identified.

**Approved Signalling Personnel accredited for Programming, Test and Commissioning of Cerberus Level Crossing Monitors:** The list shows details of approved signalling personnel accredited to undertake programming, test and commissioning of Cerberus level crossing monitors.

**Authorised Control Systems Personnel:** Details of competency and engineering authority are shown on the particular control systems ‘Certificate of Competency’ issued by the Professional Head Signalling & Control Systems.

**Sydney Trains Signalling Design Authority:** Identifies the incumbent Professional Head Signalling & Control Systems.

**Signalling – Design and Technical:** Details of competency and engineering authority are shown on the particular signalling personnel ‘Certificate of Competency’ issued by the Professional Head Signalling & Control Systems and as detailed in the Signal Design Quality procedures.

**Control Systems – Design:** Details of competency and engineering authority are shown on the particular control system personnel ‘Certificate of Competency’ issued by the Professional Head Signalling & Control Systems.

## 1.2 Sydney Trains Signal Engineer – Authorised Officers (Licensing Board)

**Sydney Trains Signal Engineer – Authorised Officers (Licensing Board):** The list details the Signal Engineer’s Licensing Board level status to conduct signalling licensing examination/assessment for the discipline.

## 1.3 Currency

Current Signalling Licence or Authorisation is valid for three (3) years from the date shown in this document or to the next scheduled general reaccreditation.

OFFICIAL

## 1.4 Inclusion and Amendments to Approved Lists

Licensed Signal Engineers, Signal Electricians, Signal Mechanical, Signal Ancillary, or Signals Authorised Persons, including Non-Sydney Trains signalling personnel, are included in the appropriate list as they become eligible through obtaining the relevant signalling safeworking licence/authorisation and maintaining that licence through re-assessment and engagement or continued employment with Sydney Trains.

A person holding a current Sydney Trains licence for Signal Engineer, Signal Electrical, Signal Mechanical, Signal Ancillary or Signals Authorised Person, not listed, and wishing to be included on the Approved Listings or a licensed Signal Engineer wishing to be elevated in Sydney Train's Authorised Officers List for Licensing Boards, may make written application to the Principal Engineer Signalling Integrity. Consideration will be given to the applicant's currency, merits and experience, and if satisfactory, the amendment shall be approved.

Suitable persons wishing to be included or updated on the listings for Control Systems, may make written application to the Principal Engineer Signalling Integrity.

Suitable persons wishing to be included or updated on the listings for initial set-up, test and certification of track circuits, may make written application to the Principal Engineer Signalling Integrity.

Suitable persons wishing to be included or updated on the listings for programming, test and commissioning of Cerberus level crossing monitors may make written application to the Principal Engineer Signalling Integrity.

Where applicable the application must include the recommendations of the required authorised officers as stipulated in Sydney Trains MN S 41412.

## 12 Approved Signalling Personnel Accredited to Assess on Behalf of Sydney Trains as an SME

Abbreviations:

UEE – Signal Electrical  
Workplace Assessments

SEI – Signal Electrical  
Installer

CCT – Circuit Tester

L1OT – ETCS L1 On-board  
Tester

AXF – Axle Counter Frauscher

L1TC – ETCS L1 Trackside  
Certifier

TLI – Signal Mechanical  
Workplace Assessments

AST – Assistant Tester

CFT – Circuit Function Tester

L1DIC – ETCS L1 Design  
Integration Certifier

SWFB – Set to Work and  
Certify Fixed Balise

WSIL – Work Safely in Live  
Signal Locations

SMI – Signal Mechanical  
Installer

STIC – Signal Tester in  
Charge

L1SC – ETCS L1 System  
Certifier

SSC – Signal Signage  
Certifier
