

Modification of Infrastructure Approval

Section 5.25 of the *Environmental Planning & Assessment Act 1979*

As delegate of the Minister for Planning and Public Spaces, I approve the modification of the State significant infrastructure approval referred to in Schedule 1, subject to the conditions in Schedule 2.

Glenn Snow
Director
Transport and Water Assessments

Sydney

8 July 2024

SCHEDULE 1

Infrastructure Approval:

SSI 9364 granted by the Minister for Planning and Public Spaces on 23 April 2021.

For the following:

Development for the purposes of the M12 Motorway, being:

- a) a multi-lane road link from the M7 Motorway at Cecil Hills extending for approximately 16 kilometres to The Northern Road at Luddenham, including intersections with existing roads (including The Northern Road) and the following interchanges –
 - i. an interchange with the M7 Motorway extending approximately four kilometres within the existing M7 Motorway Corridor (*the M7 interchange*), and
 - ii. an interchange with the proposed Western Sydney International Airport;
- b) electronic tolling facilities at the M7 interchange;
- c) the construction of new bridges across –
 - i. creeks (being Ropes Creek, Kemps Creek, South Creek, Badgerys Creek and Cosgrove Creek),
 - ii. roads (being Clifton Avenue, Elizabeth Drive, Range Road, Luddenham Road, Wallgrove Road, Villiers Road and the M7 and M12 motorways), and

- iii. part of the Western Sydney Parklands;
- d) pedestrian and cycling facilities including an off-road shared user path alongside the M12 Motorway from The Northern Road to Range Road; and
- e) ancillary development, including (but not limited to) access roads, construction compounds, gantries, motorway control centre facilities, pedestrian bridges, road modification works, signage, systems for the control and management of roads, treatment plants and utilities infrastructure (including adjustments to, or relocation of, existing utilities infrastructure).

Modification:

Amendment to Condition A16 - Site Establishment Management Plan.

SCHEDULE 2

Note: Words that have been added are shown as: added

1. Amend Condition A16 as follows:

A16 Site Establishment Management Plan

Before establishment of a construction ancillary facility(ies) (excluding minor construction ancillary facilities established under **Condition A20**), the Proponent must prepare a **Site Establishment Management Plan** which outlines the environmental management practices and procedures to be implemented for the establishment of the construction ancillary facility(ies). The **Site Establishment Management Plan** must be prepared in consultation with the relevant council(s) and relevant State government agencies. The Plan must be endorsed by the **ER** and then submitted to the Planning Secretary for approval one (1) month before the establishment of the construction ancillary facility(ies). **The Site Establishment Management Plan** must detail the management of the construction ancillary facility(ies) and include:

- a) a description of activities to be undertaken during establishment of the construction ancillary facility(ies) (including scheduling and duration of work to be undertaken at the site);
- b) figures illustrating the proposed site layout and the location of the closest sensitive receiver(s);
- c) a program for ongoing analysis of the key environmental risks arising from the site establishment activities described in subsection (a) of this condition, including an initial risk assessment undertaken before the commencement of site establishment work;
- d) details of how the site establishment activities described in subsection (a) of this condition will be carried out to:
 - i. meet the performance outcomes stated in the documents listed in **Condition A1**, and
 - ii. manage the risks identified in the risk analysis undertaken in subsection (c) of this condition; and
- e) a program for monitoring the performance outcomes, including a program for noise monitoring consistent with the requirements of **Condition C14**.

The **Site Establishment Management Plan** must be approved before the establishment of a construction ancillary facility(ies) (excluding minor construction ancillary facilities established under **Condition A20**).

Nothing in this condition prevents the Proponent from preparing individual **Site Establishment Management Plans** for each construction ancillary facility.

This plan is only needed before a **CEMP** is approved. Once a **CEMP** is approved a **Construction Ancillary Facility Site Establishment Management Plan(s)** is not required. Nothing in this condition prevents a proponent from continuing to implement an approved **Construction Ancillary Facility Site Establishment Management Plan** in conjunction with an approved **CEMP**.

*Note: **Condition A16** does not apply to minor construction ancillary facilities established under **Condition A20**.*
