

# Sydney West Overhead Wiring Upgrade – Guildford

May 2024

*Transport for NSW acknowledges the Bidjigal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.*

The More Trains, More Services program is designed to simplify and modernise the rail network.

Passengers will be able to access more services on a simpler and more reliable network through the delivery of better infrastructure, new trains and extra services.

This project will upgrade overhead wiring infrastructure inside the rail corridor to improve train movements through Guildford Station.

## What work are we doing?

In May 2024 we will be completing minor structural modifications inside the rail corridor.

## When we'll be working

Standard construction hours are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

Some work is required to take place outside of standard construction hours from **10pm Friday 24 May to 2am Monday 27 May 2024.**

This work will take place during a scheduled Sydney Trains trackwork period when no trains will be running. Scheduling construction work outside of standard construction hours enables our project team to complete the activities safely.

## Temporary parking removal

**From 5am Thursday 23 May to 2am Monday 27 May 2024** there will be a temporary loss of **up to 10 parking spaces in the commuter carpark on Military Road.** This is to facilitate deliveries and construction activities.

## What will this mean for you?

In addition to the temporary removal of parking along Military Road, you may notice:

- an increase in workers and vehicles
- noise from hand tools and other light equipment
- traffic control on Military Road.

## Managing our impacts

We understand construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

We apologise for any inconvenience the work may cause and thank you for your patience.
