

Sydenham Bus Layover Community Update

Bus Priority Infrastructure Program

December 2024

Transport for NSW acknowledges the Gadigal of the Eora Nations as the Traditional Custodians of the lands on which we work and pays respects to Elders past and present.

The NSW Government is building a new bus layover at the corner of Railway Road and Burrows Avenue in Sydenham to improve the reliability and efficiency of bus services, while easing congestion for all road users.

Submissions Report now available

Thank you for your feedback on the Review of Environmental Factors for the Sydenham Bus Layover project.

Key feedback themes included parking, traffic and transport, accessibility and the noise wall.

To view or download the submissions report, please visit:

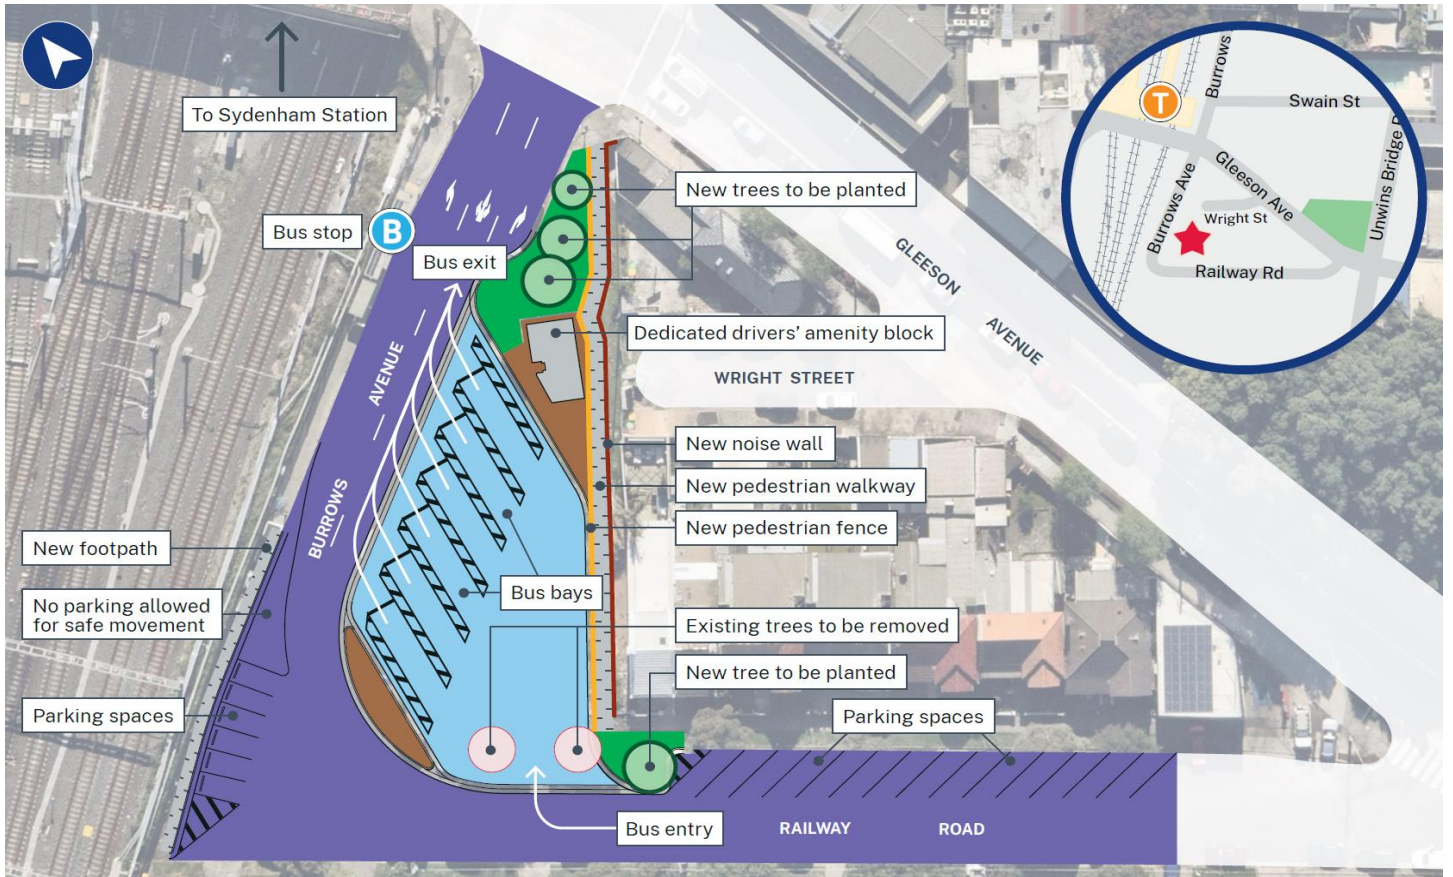

transport.nsw.gov.au/sydenham-bus-layover

Key features

The layover has been designed for buses to enter from Railway Road and exit onto Burrows Avenue and will include:

- six bus parking spaces
- a dedicated driver amenity block with a lunchroom and toilets
- a noise wall between residential properties and the layover to minimise noise impacts
- a pedestrian walkway along the eastern side of the layover with a fence to separate pedestrians from the layover area
- landscaping.

Bus layover design

Start of work

Construction of the bus layover is scheduled to start in late January 2025.

Work is expected to take up to seven months to complete, weather permitting.

We will update the community before work starts and provide regular updates as the project progresses.

Artwork

The noise wall will feature Aboriginal artwork covering the length of the wall.

Noise walls are opportunities to integrate art into transport hubs and facilities.

The Sydenham Bus Layover project team worked with Transport's Urban Design and Aboriginal Cultural Heritage team to engage with local Aboriginal artists, who were invited to present their ideas.

The artists were briefed on the bus layover project, the noise wall location, as well as cultural and environmental factors they would need to keep in mind when developing the concept for the artwork.

We will seek your feedback on the concept for the proposed artwork in early 2025.
