Tuggerah Station Upgrade

February 2024

Transport for NSW acknowledges the Darkinjung people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The NSW Government is improving accessibility at Tuggerah Station

Transport for NSW is upgrading Tuggerah Station. The upgrade will provide a train station that is accessible to those with a disability or limited mobility, parents/carers with prams and customers with luggage.

What we are doing in February 2024?

Work includes:

- general construction works, including delivery and removal of plant and materials
- surveying and site investigations
- adjustments to hoardings and fencing to facilitate construction works
- removal of low growing shrub vegetation to enable works to establish temporary ramps
- formwork, reinforcement and concrete pours
- crane movements to assist with construction
- earthwork activities including waste classification and removal of waste materials
- relocation of lights, cameras and signs on both platforms
- completion of new structural supports under Platform 1
- installation of pits for utility connections for the station

Drivers will continue to see construction vehicle movements and traffic control on Pacific Highway and Anzac Road.

During February, there will be continued temporary changes to car parking arrangements to allow for utility relocation. Signage will be in place with further details.

When we'll be working

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

Out of hours work

As part of ongoing upgrade work at Tuggerah Station, Transport for NSW is planning to carry out electrical testing within the train station between 8pm and 2am on **Wednesday 14 February and Thursday 15 February**. We don't expect this work to be noisy, but you may notice some activity at the station.

Upcoming changes to Saturday hours

In late 2023 we consulted with the community about extending Saturday construction hours at Tuggerah Station.

The majority of community members had no objection to this proposal, and we have received approval to extend our hours.

From February we will be working Saturday between **7am and 6pm** until project completion in 2025.

What will this mean for you?

We will use various equipment, including cranes, excavators, jack hammers, trucks including tipper, flat tray and hiab, elevated work platform, concrete trucks and concrete pumps, powered and manual hand tools.

Managing our impacts

There may be some occasional, minor disruptions to pedestrians, but platforms and footbridge access will remain open all weekend as the station operates normally.

A traffic control team will be available to assist with any construction impacting pedestrian movements.

This work may be noisy; however we aim to avoid impacts to the community and the environment where possible by:

- fencing off areas for the safety of commuters
- using noise blankets and turning off machinery and equipment when not in use.

Thank you for your patience as we carry out this important work.

Scaffolding for Platform 2 lift construction.
