

Community Notification

Adamstown, Cockle Creek, Awaba and Dora Creek Stations

February 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering new, state-of-the-art intercity and regional trains.

The new trains will provide new safety features, improved accessibility, facilities and reliability for passengers who travel on our intercity and regional networks.

To accommodate the new Regional Rail and Mariyung fleets, we need to upgrade and modify some existing rail infrastructure at various locations across the rail network.

What work are we doing?

In February, work within the rail corridor includes:

- surveying and laser scanning of the station and rail corridor
- geotechnical investigations to assess ground conditions
- site investigations on existing utilities and assets.

Equipment and machinery to be used:

- laser scanning and survey equipment
- bore hole drill rig
- excavator
- vacuum truck
- general hand tools
- electrical and hydraulic testing equipment.

When and where we'll be working

From **Monday 3 February to Monday 10 February 2025**, we will be working at and around **Adamstown, Cockle Creek, Awaba and Dora Creek Stations** during standard construction hours of **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

Out of hours work

To minimise disruption to the rail network and for the safety of staff and customers, some work is required to take place outside of standard construction hours from **6am to 6pm on Saturday 8 February and Sunday 9 February 2025**, during scheduled Sydney Trains trackwork.

Temporary parking impacts

From **6pm Wednesday 5 February to 6pm Sunday 9 February 2025**, approximately two car spaces will be unavailable in the commuter car park at **Dora Creek Station**. These spaces are required to enable investigation work to be carried out safely. During this time, please do not park in the shaded blue work area shown on the map overleaf.

Pedestrian access will be maintained at all times.

What will this mean for you?

You may notice:

- workers and vehicles
- moderate noise from investigation activities.

Managing our impacts

We will take steps to reduce noise and impacts on the community and the environment.

This includes and is not limited to:

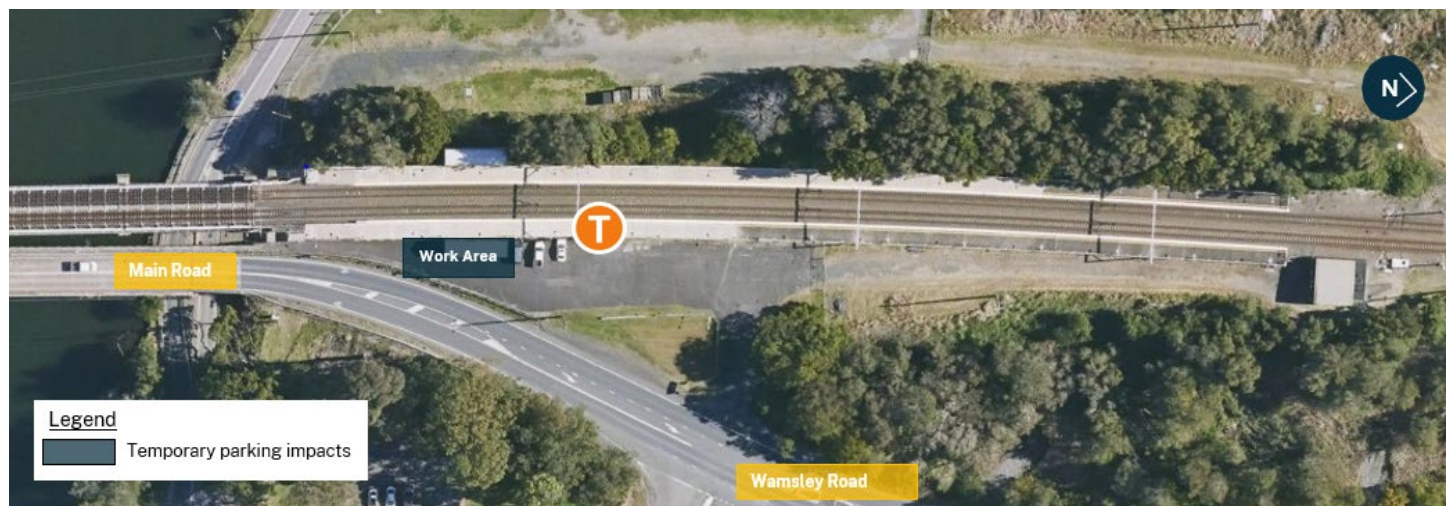

- using non-tonal reversing beepers
- instructing workers to keep noise to a minimum, where possible.

More information

Working closely with the local community is a priority for Transport for NSW. We will update you regularly on our website with information about upcoming work.

If you have questions or would like more information about the Rail Infrastructure Upgrades project, please contact us using the details below.
