

# Appin Road Upgrade Mt Gilead to Ambarvale Stage 1

## Community Update | July 2025

Construction is continuing on Appin Road from Mt Gilead to Ambarvale (Stage 1).

As part of the new Figtree Hill community, we are delivering important safety upgrades to Appin Road in Campbelltown, between Ambarvale and Gilead.

In this community update you will see recently completed work, upcoming work activities, our work schedule, how we manage our impacts and any traffic changes that may impact you.

### What have we achieved?

- Completed 99% of vegetation clearing across the project stage 1 area.
- Completed 80% of the installation of the permanent koala fencing along Appin Road with the entire road works section fully fenced.
- Completed 25% of the koala grids located at the entrance of property access.
- Installed 50% of the koala underpass culverts at Noorumba Reserve.
- Completed 50% of the permanent intersection into the Figtree Hill Estate
- Completed 100% of the new Telstra service line which is now fully operational.
- Completed 95% of the new ITS service.
- Traffic switched onto new northbound carriage way to enable work on the existing portion of Appin Road for the new southbound carriage way.

### What's next?

- Continue the installation of permanent koala-proof fencing.
- Continue the construction of the koala underpass at Noorumba Reserve.
- Continue construction works for the new southbound road carriageway include drainage swales, kerb and centre median islands.

- Continue stormwater pit and pipes installation on the new southbound carriageway.
- Continue the new koala grids installation located at the entrance of property access.
- Continue with the utility investigation works including installation and relocation of utilities within the new road carriageway.
- Install the new Arboreal crossing at Noorumba Reserve.

### Our commitment to minimise disruption

We understand that construction can be disruptive, and we're committed to minimising impacts on the community. Here's how we're achieving that:

Our standard work hours are **7am to 6pm, Monday to Friday** and **8am to 1pm on Saturdays**.

To maintain safety for road users and workers, and to minimise the impact on the road network during peak travelling times, some of our works will need to be carried out at night.

Night works in the vicinity of residential properties will be undertaken between **7pm and 5am** for up to **three nights per week**, with only two consecutive nights and no more than **10 nights per month** near the same property.

We aim to manage our work to minimise impacts on the community and the environment. Our work may be noisy at times, and we apologise for any inconvenience.

Where possible we minimise noise by:

- turning off machinery when not in use
- positioning equipment such as generators away from properties
- undertaking noise monitoring
- communicating over radio and hand signal.

## What will this mean for you?

During our night construction hours, we may use noisy machinery and equipment.

You may notice:

- workers, vehicles, traffic controllers, and signage.
- road/lane closures, detours, and reduced speed limits.

## Traffic Changes

During these works, there will be temporary traffic changes along a section of Appin Road to minimise impacts to traffic and ensure the safety of workers and road users.

These changes will include temporary lane closures and temporary speed limit reduction.

Electronic signage will advise road users of these changes. Please keep to the reduced speed limit and follow the directions of traffic controllers and signs. For the latest traffic updates, call **132 701**, visit **livetraffic.com** or download the **Live Traffic NSW App**.

## Contact us

If you have any questions or would like more information about the Appin Road Upgrade Mt Gilead to Ambarvale Stage 1, please contact our project team on:
