Westmead Station

June 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering new, state-of-the-art intercity and regional trains.

The new trains will provide new safety features, improved accessibility, facilities and reliability for passengers who travel on our intercity and regional networks.

To accommodate the new intercity (Mariyung) fleet, we need to upgrade and modify some existing rail infrastructure at various locations across the rail network.

What work are we doing?

In June, work within the rail corridor includes:

- removing outdated signal hut and cables
- minor vegetation removal.

Equipment and machinery to be used:

- generator
- excavator
- vacuum truck
- water truck
- temporary lighting tower
- hand tools, including drills, bars, shovels, jackhammers, and concrete mixing tools
- electrical testing equipment.

When and where we'll be working

From **Monday 16 June to Wednesday 25 June 2025**, we will be working at and around **Westmead Station** during standard construction hours, from **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

Out of hours work

To minimise disruption to the rail network and for the safety of staff and customers, some work is required to take place outside of standard construction hours, from **6am to 6pm on Saturday 21 June and Sunday 22 June 2025**, during scheduled Sydney Trains trackwork.

Temporary parking impacts

From **6am Wednesday 18 June until 6pm Wednesday 25 June 2025**, construction work will require the temporary closure of parking spaces in the following areas;

- 10 car spaces will be unavailable in the commuter car park at **Railway Parade**
- 20 car spaces on the road reserve along **Alexandra Avenue**.

These spaces are required to enable construction work to be carried out safely.

During this time, please do not park in the shaded green area shown on the map overleaf.

What will this mean for you?

You may notice:

- workers and vehicles
- lighting from temporary lighting towers
- moderate noise from construction activities.

More information

Working closely with the local community is a priority for Transport for NSW. We will update you regularly on our website with information about upcoming work.

If you have questions or would like more information about the Rail Infrastructure Upgrades project, please contact us using the details below.

Managing our impacts

We will take steps to reduce noise and impacts on the community and the environment.

This includes and is not limited to:

- using non-tonal reversing beepers
- instructing workers to keep noise to a minimum wherever possible.
