

Chester Hill Station Upgrade – Community Notification

Safe Accessible Transport program

March 2025

Transport for NSW acknowledges the Cobrogal and Wangal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is upgrading Chester Hill Station to improve accessibility, convenience and safety.

What work are we doing?

During March, site establishment and early work on the station platform will be underway.

Work includes:

- Establishing a temporary site compound in the rail corridor while we seek approval to establish a site compound in Nugent Park south
- Demolition of a section of the existing station platform canopy
- Relocation of the ticket machines
- Removal of the existing vending machines
- Installation of plywood screening on the platform
- Relocating lighting, speakers and CCTV
- Installation of concrete footings.

When and where we'll be working

Standard construction hours are **7am to 6pm Monday to Friday and 8am to 1pm, Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

Rail shutdown weekend

From **6pm Friday, 21 March to 7am Monday, 24 March 2025**, construction on and around the station platforms and movement of machinery will occur in Waldron Road and Chester Hill Road during a scheduled trackwork weekend when the station is closed, and trains will not be running.

What will this mean for you?

You may notice:

- Workers and vehicles
- Traffic controllers and signage
- Footpath closures
- Pedestrian and cyclist detours with traffic controllers on site to guide you.

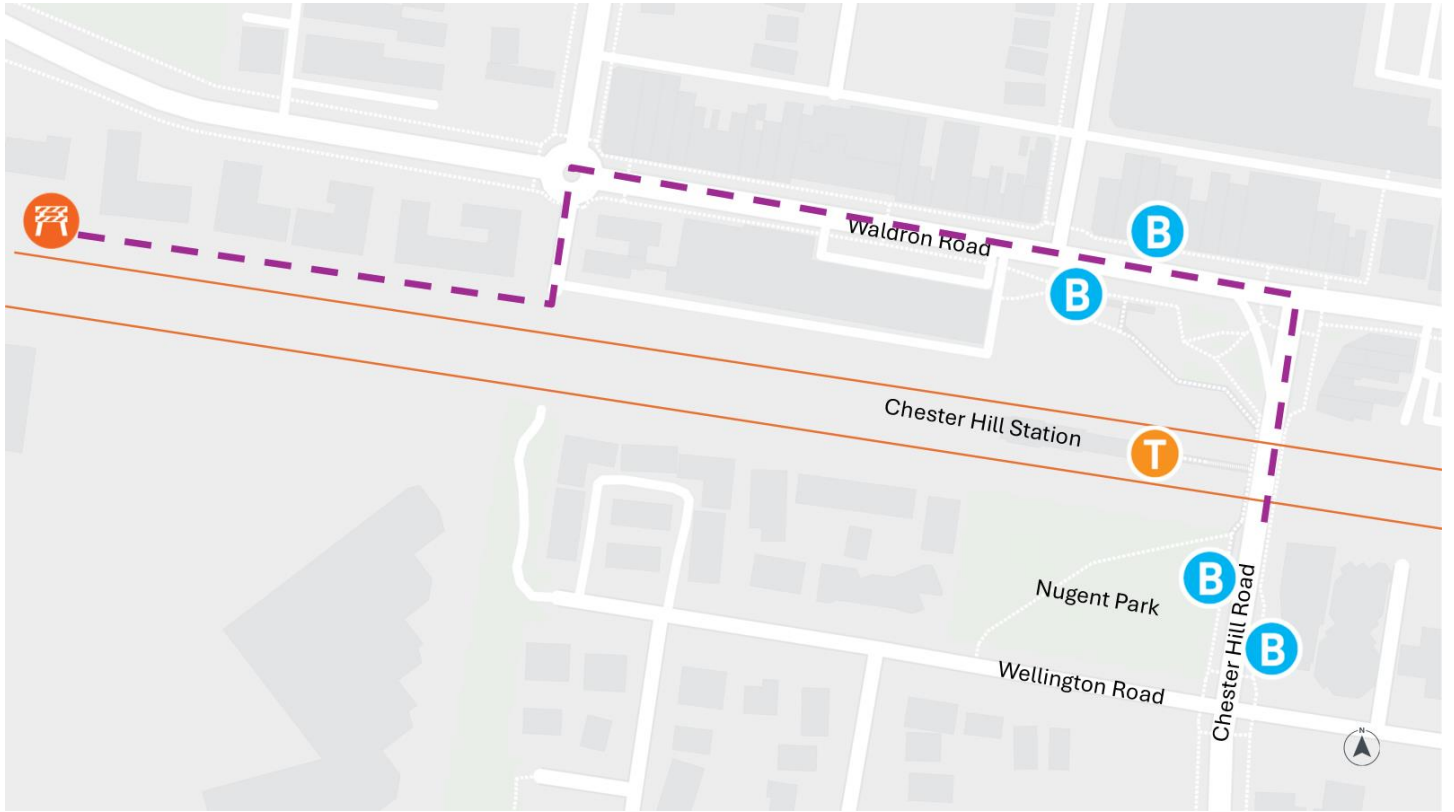

Managing our impacts

We aim to manage our work to minimise impacts to the community by:

- Fencing the work area for safety and security
- Reducing our noise as much as possible by turning off equipment when not in use
- Using quieter equipment where possible
- Providing traffic controllers and signage to safely direct road users and pedestrians.
