

# Safety improvement work at the intersection of Concord Road and Mary Street East, Rhodes from Wednesday 5 February 2025

## Community Notification

January 2025

Australian Government

Transport for NSW acknowledges the Wangal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is improving pedestrian safety at the intersection of Concord Road and Mary Street East, Rhodes. This work is being completed as part of the Federal Road Safety Program. Work will commence on Wednesday 5 February and be completed by Friday 21 March 2025.

The Federal Road Safety Program aims to improve safety and reduce crashes on NSW roads. Since 2020, the Australian and NSW governments have invested more than \$600 million into road safety projects across NSW as part of this program.

### What work are we doing?

To improve pedestrian safety at the intersection, a new left turn red arrow will be installed to allow pedestrians to more safely cross Mary Street East while holding southbound motorists turning left into Mary Street East from Concord Road on a red arrow.

Work activities will include:

- installing a new traffic light pole and supporting mast arm on the northeastern corner of the intersection to improve visibility of the traffic lights
- installing new traffic signal infrastructure, including traffic light cabling, within the footpath and road area.

To carry out the electrical cabling work we will need to excavate sections of the footpath and road surface. These sections will be temporarily filled in after each work shift and permanently restored before project completion.

Further information on the project location is shown on the map overleaf.

### When will we be working?

We will be on site for up to **14 night shifts** between **Wednesday 5 February** and **Friday 21 March 2025**, weather permitting.

We will work between **Sunday** and **Thursday, 8pm** and **5am**, the next day.

We will not work on Friday nights or Saturdays or when there are special events on at Sydney Olympic Park.

We will work up to five nights per week to complete the work as quickly as possible to minimise our impacts to the community.

If you have any concerns about our work schedule, or the work activities, please contact our delivery partner, Fulton Hogan, as detailed in the contact us box overleaf.

### What will this mean for you and how will we manage it?

Our work needs to be carried out at night to minimise disruption to traffic and reduce safety risks to our workers, pedestrians, and motorists.

It may be noisy at times, but we will do everything we can to minimise our impacts by:

- turning off equipment and vehicles when not in use
- completing noisier tasks by midnight
- installing noise blankets around our work when carrying out noisy activities
- using quieter equipment where possible.

## Traffic changes

There will be temporary traffic changes to make sure the work zone is safe. This will include lane closures and a reduced speed limit of 40km/h.

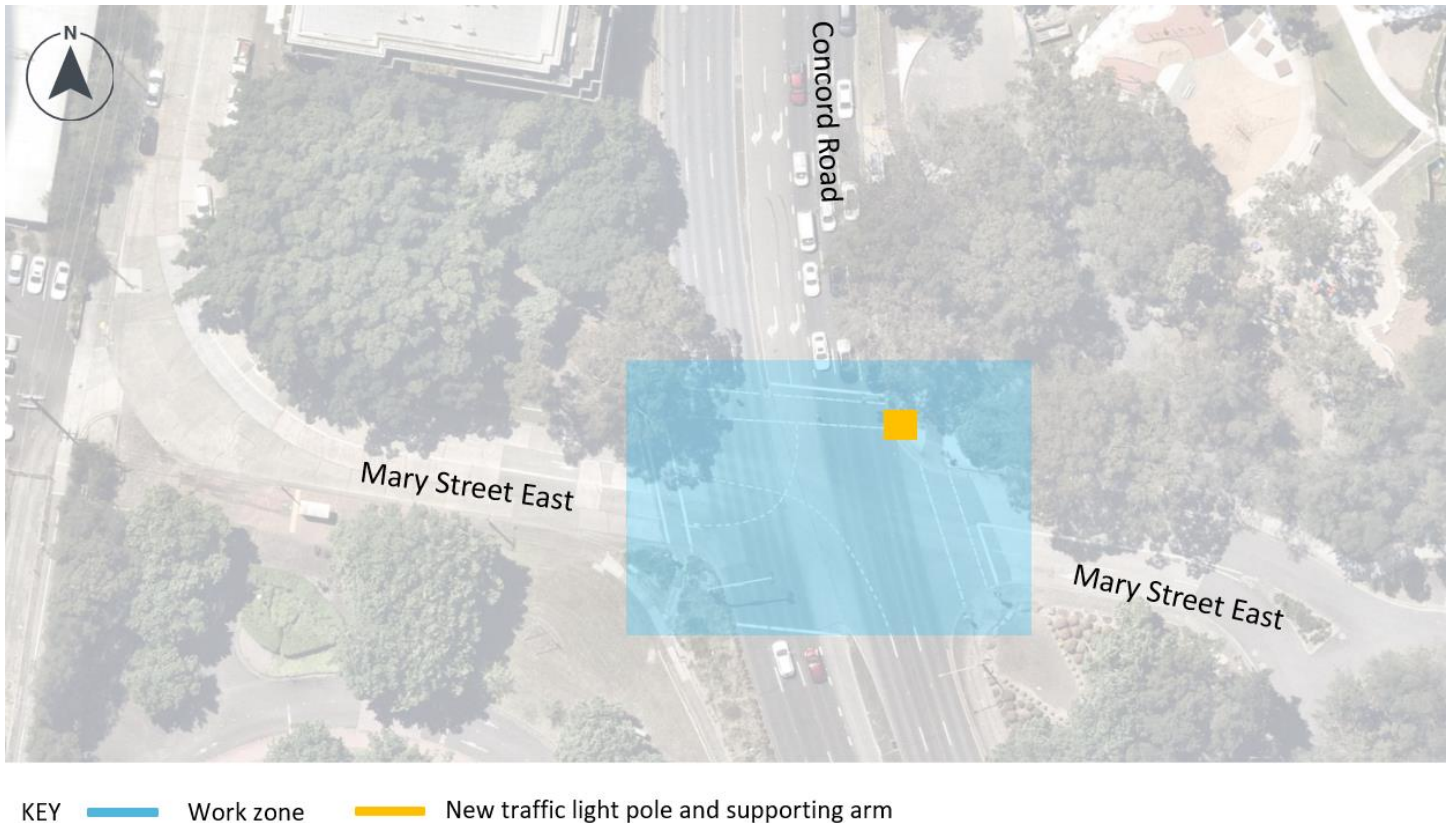

Temporary traffic lights will also be used while we install the new light posts and lanterns.

Access to the pedestrian crossing and footpath will be maintained under the guidance of traffic controllers.

Please keep to the speed limits and follow the direction of traffic controllers and signs.

Transport for NSW thanks the community for their patience while we complete this important safety improvement work.
