

# Emu Plains bus stop improvements

## Bus Priority Infrastructure Program

Consultation update | May 2025

Great Western Highway at Billington Place, Emu Plains

Transport for NSW is working towards improving customer experience, accessibility and safety, as part of the Bus Priority Infrastructure Program

Transport recently engaged with the community on the proposed improvements to several bus stops along the Great Western Highway, Emu Plains. The proposal included new indented bus zones, additional dedicated pedestrian access and enhanced safety features.

### Consultation outcome

Since receiving community feedback, we made design changes to bus stops along Great Western Highway near Warring Avenue and Dukes Oval. Improvements to the Lamrock Street bus stop will not proceed due to utility service disruption. The proposed design remains the same for the bus stop at Billington Place.

## Key benefits being delivered

Improved public transport performance

Enhanced safety for passengers

Indented bus stops for improved access

Ease congestion for road users

Improved overall customer experience

## Next steps

From Wednesday 14 May, work will begin on bus stops along Great Western Highway near Warring Avenue and Dukes Oval. You may see us on site:

- Installing temporary fencing and flagging to make our work zone safe
- Setting up equipment and traffic control
- Investigating utility services
- Removing some vegetation and trees
- Building new footpaths
- Setting out and linemarking the new indented bus stops.

Other work will include extending the service road at Great Western Highway and Billington Place. We will engage with the community closer to the start date with a separate notification that will give more detail about our work and any impacts.

Our standard work hours will be between **7am and 6pm Monday to Friday** and between **8am and 1pm on Saturdays**. At times, we may need to work at night to maintain the safety for road users and workers, and to keep people moving during peak travel times. We will notify the community of any night work in advance.

Access to properties and businesses will be maintained during our work hours unless otherwise notified.
