

Rail Service Improvement Program

Homebush to Strathfield Signalling Upgrade

February 2025

Transport for NSW acknowledges the Wangal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Rail Service Improvement Program, formerly known as More Trains, More Services, enables a safer, more equitable, and integrated transport network where people can travel more safely, reliably, and efficiently across NSW.

What work are we doing?

In February, we will be:

- completing overhead wiring infrastructure investigations
- painting existing overhead wiring infrastructure within the rail corridor.

When and where we'll be working

Work will take place on track between Homebush and Strathfield stations.

A temporary site compound will be established at Columbia Lane, Homebush.

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays**.

Out of hours work

Some work is required to take place outside of standard construction hours, including oversize deliveries to site.

This work will take place between:

- **6pm Wednesday 5 February and 6am Wednesday 12 February.**

Why we work outside of construction hours

We schedule work outside of standard construction hours to take place during Sydney Trains trackwork periods when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

Temporary traffic changes

To enable safe access into the rail corridor, parking for construction vehicles and machinery, there will be intermittent traffic stoppages on Cooper Street at Leicester Avenue to enable construction vehicles to safely access the rail corridor. Traffic control will be in place to assist with these changes.

What will this mean for you?

Work will not be continuous. You may notice an increase in workers and construction vehicles, elevated working platforms, and noise from equipment including hand tools.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise impacts where possible.

Ongoing protected industrial action

Ongoing protected industrial action is currently taking place in New South Wales, which may lead to changes and last-minute rescheduling of work. We will make every effort to notify you of changes that occur due to this action and apologise for any inconvenience this may cause.

Locations of work area

Please note these maps are indicative only and not to scale.
