

## Intersection upgrade Old Northern Road and Cross Street, Baulkham Hills – investigation work from 17 November

### Federal Road Safety Program

November 2024

Australian Government

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pay respect to Elders past and present.

Transport for NSW will be upgrading the intersection of Old Northern Road and Cross Street, Baulkham Hills to improve safety for all road users.

This project is part of the broader Federal Road Safety Program which aims to reduce crashes and enhance safety on key roads throughout the state. The Australian and NSW Governments have invested over \$600 million since 2020 into improving road safety across New South Wales.

### What work are we doing?

Transport is looking to improve intersection safety for pedestrians crossing the road and vehicles entering or exiting Cross Street.

We will be doing investigation work to inform the design for the proposed safety improvements.

Our work will include potholing and trenching to locate utilities and services at the four corners of the intersection.

### When and where we'll be working

We will be on site for up to two day and five night shifts from **Sunday 17 November** until **Friday 20 December 2024, weather permitting**.

Our day work hours will be between 7am and 6pm from Monday to Friday.

Our night work hours will be between 8pm and 5am from Sunday to Friday.

### What will this mean for you?

You may notice vehicles, equipment, and trucks in the area as we complete this work.

Our work may be noisy at times. We will make sure to complete the noisier work by midnight. We will make every effort to lessen the disturbance where possible.

### Traffic changes

There will be temporary traffic changes during our work hours. Partial lane closures and a 40km/h speed limit will be in place for the safety of our workers and motorists.

Motorists are advised to follow signs and traffic controllers' directions.

We will maintain the access of vehicles, including buses, and pedestrians throughout the work period.

We will also ensure access to properties in and around the work zone is maintained.

We thank the community for their patience while we complete this work.
