

# Jervis Bay Road intersection upgrade

## Princes Highway upgrade program

### Construction update

February 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW governments are investing in an upgrade to the Princes Highway and Jervis Bay Road intersection at Falls Creek.

#### What work are we doing?

During February, work will continue including:

- major earthworks and importing material for embankment construction
- continuing the bridge foundation with piling works and retaining walls under way
- building road surfaces on parts of the Princes Highway, Jervis Bay Road, Old Princes Highway and Willowgreen Road
- continuing the eastern access road
- continuing construction of the new eastern roundabout to allow Jervis Bay Road to remain open while major bridge works are in progress (more information will be provided prior to changes being implemented)
- continuing electrical relocations
- upgrading the drainage culvert near Willowgreen Road
- installing and/or relocating safety barriers and signage.

#### When we'll be working

From **Saturday 1 to Friday 28 February 2025** our standard work hours will be Monday to Friday between 7am and 6pm, and on Saturdays between 8am and 1pm.

Where required, night work will be carried out for up to 10 night shifts each month. Night work hours will be between 6pm and 7am.

All work is subject to weather conditions. We will keep the community informed of any changes.

#### Temporary traffic changes

During work hours there will be some temporary traffic changes to ensure the work area is safe.

Lane/shoulder closures and reduced speed limits of 60 km/h or 40 km/h may be in place on the Princes Highway, Old Princes Highway, Willowgreen Road, Jervis Bay Road and Gardner Road.

Some of the utility relocation and drainage work will be done during night shifts to minimise impacts to road users during peak times, resulting in lane closures where vehicles will be directed under traffic control.

When installing and/or relocating temporary safety barriers, we will move quickly along the road, and access to driveways will not be impacted.

Motorists are advised to drive to conditions and follow the directions of signs and traffic control. During night work, motorists are advised to allow an extra five minutes' travel time.

#### What will this mean for you?

Some activities need to be carried out at night to minimise traffic disruptions and reduce safety risks to our workers and road users.

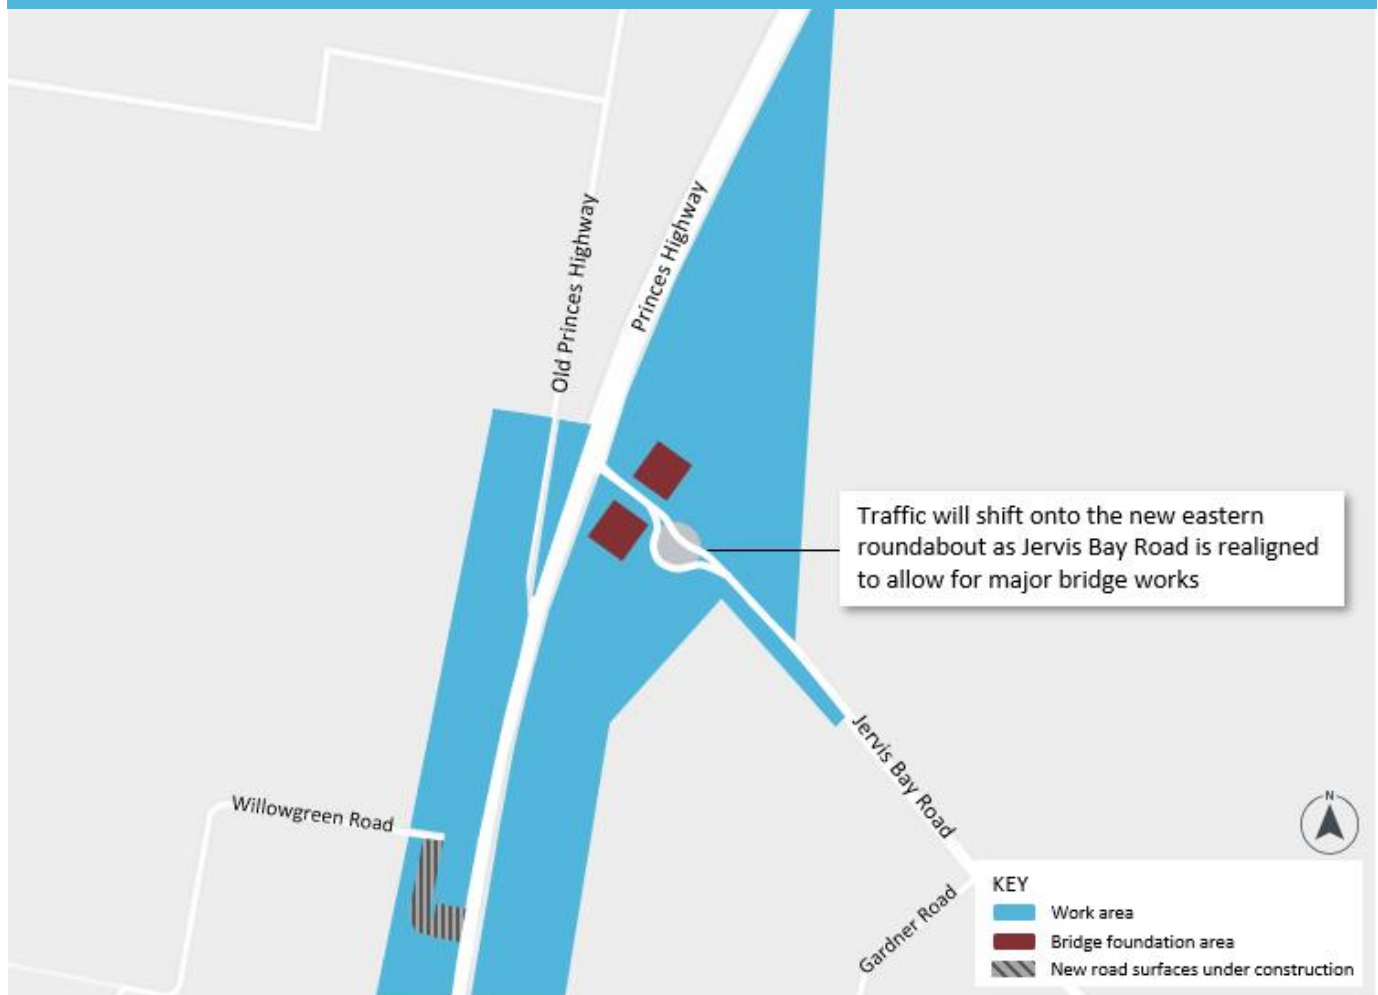

We will not work more than two consecutive nights in the same area. Our work may be noisy at times and there may be construction lighting during this time, however we will do everything we can to minimise these impacts including:

- using non-tonal reversing beepers on equipment

- turning machinery and lighting off when not in use or required
- carrying out noisier works early during the night shift.

Transport for NSW thanks the community for their patience during this time.

## Location of work area

## Contact us

For questions and enquiries please use the contact details below. The project does not have a community display centre, however we are happy to arrange face-to-face meetings on request.
