

Kingsford to Centennial Park Walking and Cycling Improvements

Extended separated cycleway at Anzac Parade and Doncaster Avenue intersection

March 2025

Transport for NSW acknowledges the Bidjigal and Gadigal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW has completed the consultation on the proposed design of the Anzac Parade and Doncaster Avenue intersection.

The existing shared path design was implemented as an interim measure as we worked towards a final configuration at the intersection.

Extending the separated cycleway through the intersection provides the safest arrangement for all road users in particular people walking and people of all ages riding bikes.

This final design provides a continuous separated cycleway and removes conflict on the existing shared path as shown in the image overleaf.

This change will result in some parking changes and the removal of the existing right turn for southbound traffic on Doncaster Avenue into Anzac Parade.

Consultation outcomes

The community and stakeholders were invited to provide feedback on the proposed design from Thursday 19 September to Friday 18 October 2024.

We distributed a community notification, sent emails, installed local posters, door knocked nearby properties and contacted everyone who requested a follow up. We provided an online feedback form for all community feedback as well as emails and phone calls.

We received 88 comments on the proposed change, most of which were supportive of extending the on-road cycleway and removal of the right-turn on Doncaster Avenue to improve safety for all road and footpath users.

Other comments related to specific suggestions for the cycleway design, access into and out of driveways, parking challenges, and other non-project related feedback have been provided to Council.

A copy of the Consultation Summary Report can be found on the project website

Next steps

The Kingsford to Centennial Park Walking and Cycling improvements project is a Council project and Doncaster Avenue is a council-managed road.

The final design for the cycleway and parking changes will be determined by the Local Traffic Committee (LTC) at the meeting on Tuesday 11 March 2025.

Transport for NSW supports these proposed changes and recommends that the LTC approves the continuous separated cycleway and associated changes.

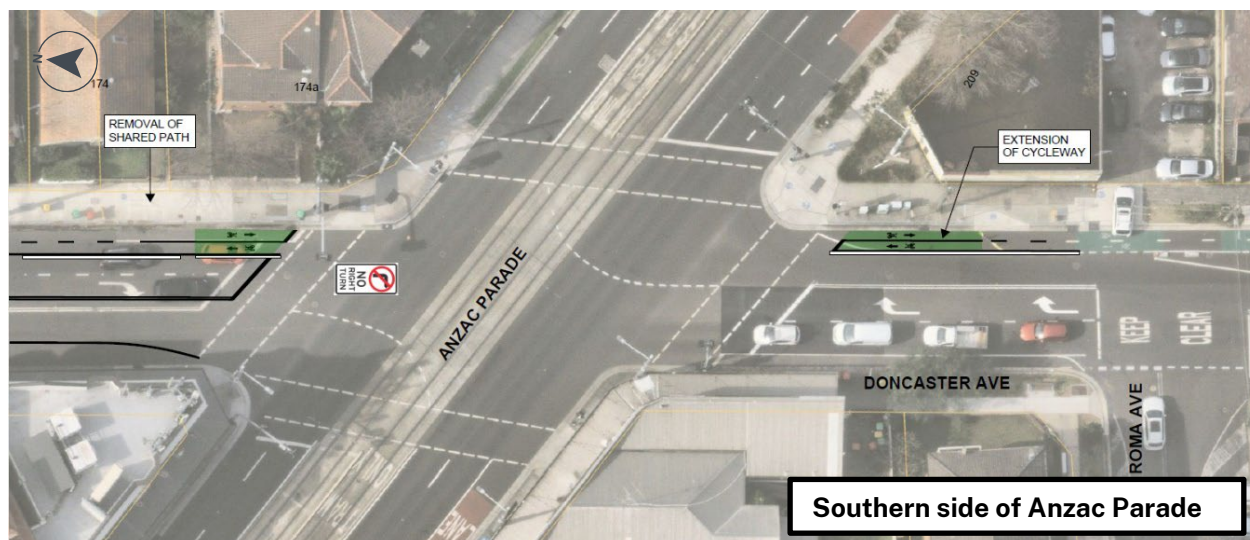

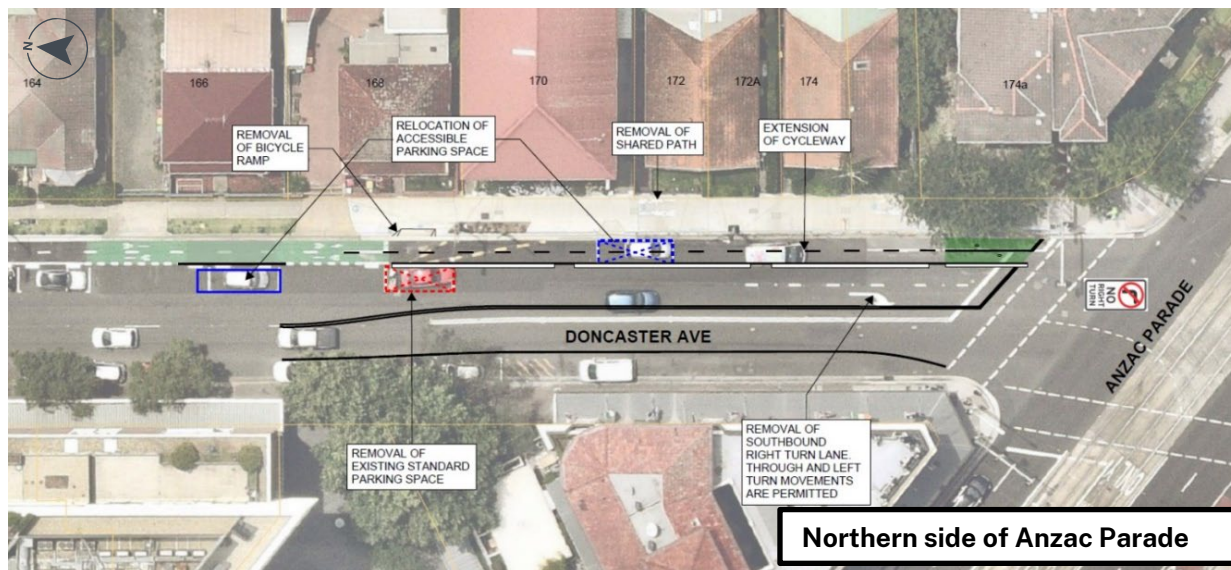

Pending Council approval of the cycleway design, Transport will finalise the required traffic signal design over the coming months.

We will provide an update on our website about the outcome at the LTC and we will distribute a project update to the community when work is due to commence.

Recommended changes

The on-road cycleway will continue through to the southern side of Anzac Parade and the shared path will be removed. The southbound right turn movement from Doncaster Avenue into Anzac Parade will be removed.
